A man with a long beard and a light-colored turban is shown from the chest up. He has a thoughtful expression, with his eyes slightly closed. The background is a warm, orange-gold glow with soft, out-of-focus light spots, suggesting an indoor setting with ambient lighting. The overall mood is contemplative and serene.

The 10th Anniversary Special

20

This month we're looking back a full decade to the introduction of the NES, the system that brought video games back to life with the help of a pair of plumbers from Brooklyn and a Robotic Operating Buddy.

PLAYER'S PULSE

As is the case with most magazines, yours is great, but I can still find a few areas I would like to see improved upon. First, I normally like the reviews but feel that many of the articles are for 3-year-olds! Really, I think we can handle a little more than what you are giving us. Second, while I like Donkey Kong Country, it is not the best game ever, as you seem to think. Every issue lately has had something relating to DKC in it. It's getting a little annoying. Sorry if I sound like one of those people who can never be satisfied. I'm not. I still think your mag is super, with just a few minor flaws.

One of my favorite sections in your magazine is the Player's Pulse. I think you should make it larger, though. I also think you should print more letters and print the envelope art bigger. I think you should also write more replies to letters. Except for that, don't change anything else because it is perfect the way it is.

**JAMIE BORZYCHOWSKI
NIAGARA-ON-THE-LAKE
ONTARIO**

I recently finished EarthBound, and I loved it. I've played many good epics such as Secret of Mana and Final Fantasy III, but EarthBound's humorous graphics and dialogue, plus its vibrating battle backgrounds, make for an interesting, fun and difficult journey. I have a few questions. Will there be an EarthBound 2? Pokey seemed pretty

set on revenge at the end of this one. Second, what were the models of the heroes and monsters in the EarthBound Player's Guide made of?

**KERRY DANISZEWSKI
ENGLEWOOD, OH**

Actually, EarthBound is a sequel. The original NES game was published in North America. No word on a third installment. The models were made of clay for the player's guide in Japan.

I am concerned about the NU 64. My reason is temptation to buy another system, namely a Sega Saturn or Sony PlayStation. I have been a loyal buyer of your products and have never bought any other system. I have looked at the pictures in Nintendo Power of some of the games and they look great but April 1996, when the NU 64 is scheduled to ship, is a long time away. I want to get one but it might be too late and there might be a rival system beside my TV by the time the NU 64 comes out.

**RHETT FINKLEA
DILLWYN, VA**

We hear your concerns, Rhett. You can bet that we thought about them before making the decision to delay the NU 64. But take a look at this next letter...

Over the years of reading many so-called "non-biased" video games, my impression is that these magazines are indeed biased. Biased against Nintendo. In almost every situation where there is a chance to compare Sega and Nintendo, most of these hot-shot editors are immediately brown-nosing Sega, praising it for bringing out its systems first. The only reason for that is Sega is more concerned with beating the competition at the starting line than with the overall quality of its products and the true gaming experience. To me the delay of the NU 64 just strengthened my faith in Nintendo even more. Nintendo's reason for the delay: "We want to give our programmers more time to study the capabilities of the Ultra so that we can create truly awesome games." This proves to me that Nintendo cares more about the quality of its games and the gaming experience for players. Nintendo's priorities are straight.

**TOM ELLIS
MAUMEE, OH**

The grand prize winner for Nintendo Power Volume 72, Chris Estrada, enjoyed good luck every step of the way as he claimed his prize: a trip to the BASS Masters...Classic in Greensboro, North Carolina. The first day out, Chris snagged a fish almost as soon as he dipped his hook in the water. O.K., it was a catfish, not a bass, and all right, it was pretty puny. But Chris immediately picked up the anthem of fishermen everywhere: "You shoulda seen the one that got away!" Chris also earned the autograph of one of the pro anglers, Mark Davis. The next day, Mark scored a tremendous come-from-behind victory to win the Classic! Chris also won a boatload of prizes, including BASS Masters Classic for the Super NES from THOR. Chris even bottled the bugs to watch the pros launch their boats at 5:30 in the morning. Now that's dedication!

"So, back boys! The one's lighter!"

EarthBound...
What's that sound?
EarthBound...
What's shakin' the ground?
EarthBound...
What's possessin' the hounds?
EarthBound!
It's comin' to your town!
EarthBound...
Into your home its way has found.

EarthBound...
It's got you wired and wound!
EarthBound...
It's makin' your head go pound!
EarthBound!
And it won't quiet down!
EarthBound!
So you'd better PLAY IT LOUD!

SHOWDOWN AT THE APOCALYPSE

Shao Kahn, the evil emperor of the Outworld, is tired of his failed attempts to conquer the earth. BICYCLE KICK

Sonya has a very unique talent: she can juggle with her feet! She prefers to juggle her opponents instead of their heads. Execute Sonya's Bicycle Kick by pressing Back, Back, Down and High Kick.

RINGS

Let the agony of defeat ring in your ears! Stand back and tap Down, Down/Forward, Forward and execute a Low Punch. Repeated, inflicting pain from a distance is the next best thing to being there.

Most MK characters possess a special class range attack. Step up to your foe and let go with a Low Punch. Now you can strangle your foe in Sindel's permanent whip and give them a few split cents!

FATALITY

Make no bones about it, Sindel's fatality is something to cheer about, but it can be very challenging to pull off. Stand close to your defeated opponent and press Run, Block, Block, Run and Block. Your timing must be perfect.

KNIFE THROW

Long ago Kano tried to make money throwing knives blindfolded. Because he could only hear the audience's screams and gasps, he decided to ditch the blindfold. Press Down, Back and execute a High Punch.

GRAB & BITE

Kano gets grumpy if he doesn't get a meal on time and has been known to occasionally take a bite out of his opponents. Stand near your foe and press Down, Down/Forward, Forward and execute a Low Punch.

FATALITY

JAX

Years ago Major Jackson Briggs deduced that Kahn's Outworld forces would invade Earth. In preparation for the battle, Jax ordered his arms surgically removed and replaced with hionic implants. Jax's lethal limbs make him a major threat to Kahn's diabolical plans.

LIU KANG

Of all earth's survivors, Liu Kang is most responsible for thwarting Shao Kahn's previous attempts at total conquest. Perceived as a major threat, Kang is a primary target for Kahn's roaming death squads. Liu Kang fights to preserve the last beating hearts of humanity.

DOUBLE MISSILE

Jax has tactical first strike capabilities to release the missile, press Back, Forward and let go with a High Punch. To fire two missiles, tap Forward, Forward, Back, Back and execute a High Punch.

BICYCLE KICK

Liu Kang's Bicycle Kick requires preparation time outside your opponent's range. The attack is automatically executed when you press and hold Low Kick for three seconds then release the button.

SHOULDER SLAM

The charging Shoulder Slam is great for knocking your opponents off their feet. Press Forward, Forward and execute a High Kick. Frustrate your opponents by repeating the attack as they try to stand up.

FIREBALL

Liu Kang has two different projectile attacks. Press Forward twice and execute a High Punch to launch a high fireball, or substitute a Low Punch for the High Punch to aim at your opponent's knees.

FATALITY

Jax has no problem stomping on his defeated opponents. While your foe teeters on the brink of defeat, hold the Black Button, press Up, Down, Forward, Up and release the Black Button. Looks like that host needs more golf!

FATALITY

Liu Kang's flaming fatality is one of the easiest in the game to pull off. Stand within half a screen from your reeling foe and press Forward, Forward, Down, Down and execute a Low Kick. Anyone love a fire extinguisher kandy?

FRIENDSHIP

As with all Marval Rivalry Friendship Moves, Jax cannot jump rope if you used the Black button during the final round. While your defeated opponent is still standing, execute a Low Kick, Run twice and tap Low Kick again.

ICE SHOWER

No westerner alive can predict Sub-Zero's freezing Ice Shower attack. Press Down, Forward, Back and execute a High Punch. Mix up the order on the controls and it needn't show up in other directions.

CLUB TOSS

The Club Toss is a charging attack that sweeps your feet off their feet. Press Forward, Forward and execute a High Kick. This move is useful as a surprise attack, often catching your opponent off guard.

ICE STATUE

The Ice Statue is literally the coolest trick in the game. If your feet are foolish enough to touch Sub-Zero's Ice Statue, they're instantly frozen. Tap Down, Down/Back, Back and deliver a Low Punch.

FATALITY

Stryker occasionally likes to clock the last guy power on his laser gun. Stand on the opposite edge of the screen, press forward three times and follow up with a Low Kick. You must use the full screen for the Fatality to work.

FATALITY

Sub-Zero's serving up nasty frozen desserts. Press the Back Button twice, then the Run Button, Back Button and finally the Run Button one last time. The coverage's freezing fatality is enough to make your blood run cold.

FRIENDSHIP

It's time to cross the street! Stryker is always ready for all the Mid's attention. Execute a Low Punch, press five times and execute another Low Punch. This is probably the most hilarious Friendship move in the game.

FRIENDSHIP

Frosty the Snowman? Get real! Sub-Zero's the only ice-man in this game. Put the finishing touches on the Friendship Move by executing a Low Kick, tapping the Run Button twice and pressing Up on the Control Pad.

SEKTOR

NET CAPTURE

Cyrax's net instantly renders foes helpless. Tap Back twice and let loose with a Low Kick. After tripping your prey, the net will drag them toward you, giving you time to prepare your next attack.

MISSILE ATTACK

Sektor has two missile attacks. Launch a direct attack by pressing Forward twice and letting loose with a Low Punch, or fire a heat seeker by pressing Down, Down/Back, Back and adding a High Punch.

BOMB DROP

To go for a leg bomb, press and hold Low Kick, tap Forward twice, and execute a High Kick. Throw for a short gain by holding Low Kick, tapping Back twice and executing a High Kick.

TELEPORT SUPERCHARGE

The Teleport Supercharge is an excellent move for switching sides and scrambling up behind your opponent. Tap Forward twice and let loose with a Low Kick. This move can even be executed in midair.

BABALITY

Check out Cyrax's Babality! Press Forward, Forward, Back and let go with a High Punch. The Babality won't work if you bleeded during the final round of combat. What? Shao's a cute little Shokan?

FATALITY

Sektor likes to pluck the heads off his foes with his portable trunk compactor. When you are told to finish your opponent, stand a big smug bow and press Low Punch. Run twice and hit the Block button. What's the perbogan cast?

Once employed as a historian and preserver of his people's culture, Nightwolf evoked an ancient magical spell to preserve the sacred land of his ancestors. The protective barrier cannot be broken until Shao Kahn destroys Nightwolf.

SHEEVA

Shokans are a proud race that produced warriors Goro and Kintaro. While Sheeva was chosen as Queen Sindel's bodyguard, she distrusts the emperor. Shao Kahn promoted Motaro as his top lieutenant, and Centaurs are natural enemies of the Shokan.

AXE UPPERCUT

Nightwolf likes a close show, but he needs practice. Press Down, Down/Forward, Forward and execute a High Punch. Now he can practice his apotroton technique on his foe. Does anyone have a Bone-Aid?

MEGA STOMP

NINTENDO TIMES

TEN YEARS OF NES HISTORY

This fall marks the tenth anniversary of the NES, and we're celebrating by taking a look back at the origin and evolution of the amazing machine that revolutionized video gaming. From a humble gray box came a decade of magical games that enchanted, excited and amused players worldwide. From Super Mario Bros. to Tetris 2, they offered up experiences that could only be found on the NES, the system that would go on to sell more than 36 million units.

In October of 1985, Back to the Future was hot at the box office, The Cosby Show and Family Ties were the talk of television, and Punch-Out? was sucking up quarters at arcades nationwide. The home video market, in contrast, hadn't just fallen on hard times by the mid-'80s, it had burned out in a colossal blaze, fueled by

stacks of lousy games. By the time Nintendo introduced the Nintendo Entertainment System, or NES, in 1985, the company had a hard time, at first, finding anyone who was willing to give it a try.

The NES used the same technology as the Famicom, which had become tremendously popular in Japan. Nintendo knew that the

NES was a great product, but it also knew that it would be challenging to get players in North America to try video games again. Players and stores were wary. Both had been burned by Atari's flame out, so Nintendo knew that it had to set the NES apart from the earlier generation of games.

Although the heart of the NES

R.O.B. WHERE IS HE NOW??

R.O.B. was cool, R.O.B. was hip, but R.O.B. had only two games. After the novelty of Stack-Up and Gyromite wore off, R.O.B. was shoved to the back of the video shelf. Not one to sit and collect dust, R.O.B. has been active in retirement.

R.O.B. cracked the tube when the NES debuted in October of '85. It was only the first prominent role he would play in his life.

Give the guy a hand in '86. R.O.B. helped celebrate the unity of man- and robotkind by being on hand in Hands Across America.

was an eight-bit computer, it wasn't intended to serve the same purpose that home computers did. It wasn't for word processing, balancing checkbooks or creating spreadsheets. And, although its primary users were kids, it wasn't a toy either. It was an electronic product meant for entertainment. Thus it was dubbed the Nintendo Entertainment System.

The Famicom, with its red and white casing, looked much like a toy, so it was redesigned for the U.S. market. The first prototypes, designed in the U.S., were sleek, with top-loading Game Paks and wireless components including a light gun, a keyboard and a piano keyboard. Reaction to the system was not good. It was perhaps too sleek, and kids had no interest in the keyboards, which were eliminated. The final design was simple and more box-like than the prototype, but it included two peripherals designed to intrigue players: the Zapper light gun and a Robotic Operating Buddy R.O.B. for short.

R.O.B. stood all of 9 1/2" tall, and

he operated with two games, Gyromite and Stack-Up. In Gyromite, R.O.B. balanced spinning gyros on platforms, and in Stack-Up, he stacked up colored blocks to match the on-screen display. He moved back and forth and up and down. That's it. Not exactly exciting stuff by today's standards. But he did look cool, and he even came with custom shades (a glare guard, actually).

The NES, with R.O.B. and the Zapper, launched in New York City with a library of 17 games, including Baseball, Clu Clu Land, Donkey Kong Jr. Math, Duck Hunt, Excitebike, Golf, Gyromite, Hogan's Alley, Ice Climber, Kung Fu, Mach Rider, Pinball, Stack-Up, Super Mario Bros., Tennis, 10-Yard Fight and Wrecking Crew. From there, sales moved to Los Angeles the following February, and by September of '86, they went national. The phenomenon had begun.

In September of 1987, Nintendo upped the play value of the system

The early designs for the NES were sleek and cordless. The infrared components, it turned out, didn't work when moved around during game play.

by packing Super Mario Brothers in with the NES. Players had gotten to know Mario in the arcade, but it wasn't until he went home with the NES that he became a household name. That's when beating Bowser became a global goal, and the Minus World became part of almost every kid's vocabulary. With his bro, Luigi, Mario showed players just how fun an action game could be, and along the way, he became more popular than even Mickey Mouse.

Mario was, of course, the main man, and he would go on to star in two more NES titles, including

grew the Nintendo Fun Club, which included a newsletter that was first printed in 1987. It was produced quarterly, and soon there were two and a half million members, all screaming for even more codes and tricks. Nintendo decided that players needed something bigger, a magazine packed with secret tips, winning strategies and full-color maps, a magazine that would help players get the most from their games. time. He also had cameo roles in a number of other NES games, including Dr. Mario and NES Open Tournament Golf. Other characters made names for themselves on the NES, too, though. The Legend of Zelda, released in July of '87, introduced Link and the ever-kidnapped Princess Zelda, and the following month, Samus Aran, the first heroine for the NES, revealed her identity in Metroid. Both games became classics in their own rights, spawning sequels on the NES and later on Game Boy and the Super NES.

Out of the popularity of the NES

result: Nintendo Power, printed in July, 1988, was sent free to all Fun Club members, and more than a million of them paid to become regular subscribers to what was, in the beginning, a bi-monthly magazine. Nintendo Power went monthly in January, 1991, featuring all of the best games made for the NES. Kid Icarus. Metroid. Mega Man.

Mario and Luigi made names for themselves in their arcade game, but they didn't become true video superstars until they hit the NES. By the

time Super Mario Bros. 3, the biggest-selling video game of all time, came out, Mario could fly, swim in a frog suit, and hide using a Tanooki Suit.

Castlevania, Zelda II, Ninja Gaiden, Double Dragon, Adventure Island, Battletoads, Blaster Master, Bomberman, Contra, Dragon Warrior, Final Fantasy, Ghosts 'n' Goblins, Adventures of Lolo, Tecmo Super Bowl, Punch-Out!, Rad Racer, R.C. Pro-Am, Ice Hockey. All of them have been in the spotlight on the pages of Nintendo Power. All became NES classics.

The NES, for all the years of powerful fun it served up, gave way to

new generations of both players and systems. It's no surprise, though, that players who moved on to the Super NES still go back to play their favorite classics on the NES. For one more shot at Bowser. One more trip through Hyrule. One more battle with the Mother Brain. They may be eight-bit, but they're still gaming at its best. It's the games themselves—not the graphics, not the music, not the pure processing power—that *make* the fun. And the NES made it all happen.

An Unholy Alliance

Acclaim's long-standing relationship with Marvel's Spider-Man continues with the debut of Separation Anxiety, a two-player fighter for the Super NES. This time out, Spidey finds himself in a pact with his dark nemesis, Venom. Although the unlikelyst of allies, they must work as a team (aided occasionally by other Marvel heroes) to prevent the sinister Life Foundation from unleashing Venom's five symbiotes in a wave of world-wide terror. Thirteen levels of nonstop action and five special trap rooms await the duo, taking them from dark city streets to the Foundation's very core. Along the

way they'll face thugs, droids, foot soldiers, a five-member mercenary force known as the Jury, and the dreaded symbiotes themselves.

Smash 'n Dash

While Spidey and Venom are best known for their web-slinging and wall-crawling skills, in Separation Anxiety it's their hand-to-hand fighting abilities that are tested to the max. But if you follow a simple strategy, brawling will be a breeze. As enemies begin surrounding you, move straight up and down, which will cause the villains to line up in a row on one side of the screen. Keep moving up and down, hopping haddies one at a time as they cross your path. This technique may seem a little awkward at first, but trust us it's better than becoming a Spidey sandwich.

The Mean Streets

Spidey and Venom begin the mission on the dimly lit streets of Manhattan, facing off against the Life Foundation's hired thugs. While most of these goons are no match for the duo, the head hangers at the end of the level can whip the pair into shape.

First Verdict

Your first trial with a Jury member will be very short if you move quickly. Land a few swift punches to the clunky champ and back away before he moves his spioning fist in for the kill. This junk heap also likes to slam his hand on the ground, causing major damage even if you're not nearby. Avoid the grand slam by either jumping or wall crawling just don't get caught with your feet on the street.

Up the River

High above one of New York City's waterways, Venom and Spider-Man must race across a run-down bridge to draw ever closer to their enemy's headquarters. As they forge their way ahead, they must battle Life Foundation foot soldiers, who are stronger and better armed than the thugs they defeated earlier. Our heroes will also have to watch for large gaps in the bridge that make web-swinging the only way to continue.

Hidden 1-Up

As you near the first archway, the word "GO" and a yellow arrow will appear, prodding you to move along. Instead of rushing ahead or swinging through, take only small steps forward until a pack of foot soldiers arrives. Once you've defeated the troops, walk up to the far side of the road and then to the right until you're hidden behind the archway. Now jump up to reach the 1-up icon overhead.

Forest Route

Moving beyond the dingy confines of the city, our heroes seek out the entrance to the Life Foundation in the deep forest. Despite the serene surroundings, the duo faces legions of troops while trying to navigate a route through the woods. A quick tip: If you run quickly into the passageways, you'll have fewer soldiers to fight.

Power-Ups Abound

At first glance, the lowest area of this stage may appear to be a pointless dead end. But if you stick around and defeat all the soldiers who cross your path, you'll earn a couple of 1-ups and two Captain America icons. It's too bad that there's no time to celebrate. Get back on track and finish the level.

Trial by Fire

This juryman wields major firepower, and if you keep your distance, you'll be riddled with bullets. The trick to beating him is to stay close. While remaining outside the line of fire, close in on him. When he moves in to meet you, whale away. He'll quickly get back up and wield his rifle like a club, so you'll need to move up or down to avoid his blows. A few more punches will take him out.

No Recess

Old rustbucket has returned from the city, and he's looking to retry your case. You'll find him waiting for you just before you enter the dead-end section of this stage. Turn back a page to hone up on your best demolition techniques.

The Offspring

This symbiote may have inherited Venom's fashion sense, but he's no match for the big guy. Just move up and down until he comes to you, then pick him up and toss him. If you try to pummel him, he'll simply roll away and then spring back with a swift kick. Once he's defeated, you will be whisked away to a trap room.

Dire Descent

Having escaped the trap room, Spidey and Venom discover an elevator that they hope will lead them closer to the heart of the Life Foundation. As they descend, they face a platoon of guards.

Lower Court

A high-voltage adversary, this juryman must be handled carefully. Again, the strategy is to move up and down while letting him come to you. When he gets close, throw a few punches then move away quickly before he turns on the juice. Also, watch for his ground-slammng fist. You'll have to make a well-timed jump to avoid damage.

The Underground

You've reached the Foundation's subterranean city, where henchmen are just waiting to halt your progress. Even if you defeat them all, they'll have the last laugh: A trap room awaits.

Whip Lass

This female symbiote looks a lot like Carnage, and unfortunately for you, she can cause just as many headaches. You'd better avoid her special kicks and whipping spin attack or you'll find yourself flat on your back. By now, you should be an expert in the punch-and-run method. We strongly suggest that you put it to good use.

Mall Mayhem

How Spidey and Venom ended up in a mall is a mystery, but you can bet that they'll have no time for shopping. While the first two floors are awash with soldiers, the third floor features a squad of marksmen, best avoided by wall-crawling your way to the right.

Split Decision

The jurneo that you faced on the bridge and the elevator have come back as a tag team, so you're going to have to work fast to finish them off. To win this battle, use the same strategies that worked before, and take out the rifleman first.

Let off Steam

Trying to find a secret entrance to the enemy's lair, the duo races through a maze of vents guarded by deadly droids. Unlike other stages, this one has two exits, both protected by a roving pair of symbiotes. No matter which path you choose, a trip to a trap room is inevitable.

Double Trouble

You've beat 'em before now beat 'em again using the same techniques. Be sure to defeat the female symbiote first so that you're not open to attack when tossing the Venom look-alike.

The Foundation

The web-slingers have finally located a way into Foundation headquarters. This stage is fraught with mechanical menaces that cough up plenty of Power-ups and Hawkeye icons when you defeat them. Be sure to save your arrow aficionado until you face the Jury.

Higher Court

These high-flying jurymen pose the most challenging threat our heroes have faced thus far. Do your best to avoid them when they're in the air, and take on the rifleman first. If you still have your Hawkeye icons, you should use them now.

In Security

The Security Zone is a thumb-numbing test of Spidey and Venom's stamina. Waves of droids and soldiers offer players little relief, and visual obstructions just make things worse. If you survive the onslaught, a trap room with a 1-up and a heart is next.

Slice 'n Dice

This somersaulting symbiote can easily slice you to ribbons if you don't employ a special strategy. Move up and down until he comes in close, then either pummel or toss him as fast as you can. Repeat this process until his life meter runs dry.

The Hot House

From the looks of this greenhouse, the Life Foundation has been conducting diabolical experiments on plants as well as on Venom. Collect Ghost Rider and Daredevil icons to help you weed out the grenade-tossing soldiers and dangerous droids.

Hit & Run

This symbiote is no shrieking violet. While our proven method of attack works well, her jumping and split-kicking abilities call for a special warning: After she closes in and you've thrown some punches, don't back away or she's sure to connect with a kick. Instead, just move up or down.

The End?

Spider-Man and Venom have fought bravely through ten grueling levels, but their ultimate goal remains elusive. Before they face their final trial, they'll have to battle it out with droids and juries in a hi-tech warehouse, escape another trap room, take on a lizard-like symbiote in a second security zone, and finish off four judges and all of the symbiotes in the very heart of the Life Foundation. Only then will the beleaguered heroes face their greatest challenge: destroying the terrorists' finest warrior, Carnage.

WINNING '96 SEQUELS

One of the best things about my job is playing and reviewing upcoming sports games, especially the good ones.

Occasionally I hit **Muddy Fields** a few bench warmers. You've seen them, sports sequels with updated rosters a new title screen and no innovations or new features. IT'S A SLAM DUNK!!

By Electronic Arts

Lace up your high tops! Electronic Arts is back with the latest in the NBA Live series: NBA Live '96. The star-studded, battery-backed game features all 29 NBA teams, including the Vancouver Grizzlies and the Toronto

Raptors, two All Star Teams and four custom teams. NBA Live '96 lets you relive

all of last year's NBA season, take the Seattle Sonics through an 82-game season and watch them choke in the playoffs (no wonder they changed their name and logo). The NBA endorses NBA '96, which includes the new and official team logos. This sequel emphasizes basketball over super stardom. While you still get the big names, the pro photos seen prior to opening tipoff in Live '96 are gone. The pointing and taunting after slam dunks have also

disappeared. The players in Live '96 are here to play. And there are other major improvements. The annoying left backboard is now transparent plexiglass. Now you can catch every slam and jam at both ends of the court, or use the instant replay option to review the action you did-

and the road trips. Every forum, arena and stadium is distinctive in color and design. NBA '96 gets the

crowd in the game when you step to the line for free throws. The visiting team is confronted with screaming, waving fans surrounding the backboard. Chans and pounding feet reverberate throughout the arena as you dribble the length of the court, but the obnoxious fan with the referee whistle in Live '95 had his season ticket revoked in '96. You can hear the individual voices and shouts as you launch yourself sky-

ward toward the rim. The '96 prospect is faster and smoother naturally in smooth frames of animation. The computer A.I. is meaner and tougher than its '95 predecessor. You can't trick it with flashy passing like you can human opponents, but you can turn over the ball by mixing up your defensive strategies and pressure. Every third quarter features a sports trivia question (the answer is revealed during the fourth quarter). A custom rule option lets you set up

the rules of the game the way you like them, even if you want to make the change in the middle of a match up. Live '96 also has a multi-player option, allowing as many as five players to square off simultaneously

(watch the elbows). We were hard pressed to find any shortcomings in the game. Charles Barkley and Michael Jordan were the only two players absent from Live '96's roster. This is probably because of contractual agreements with other video game companies. If you play basketball or simply enjoy watching the sport, this game is definitely worth checking out.

YOU'RE IN THE GAME

If you've played any recent EA release, you've probably heard the "It's in the game" introduction a thousand times. NBA Live '96 adds a twist on the phrase and places you at center court! A new option allows you to slam dunk your own basketball in the comfort of your own living room or den without breaking the furniture. Select "Roster Setup" at the main menu and edit one of 23 players

in the menu. Add your name, pick your favorite jersey number, and input stats, including height, weight, (don't lie!) appearance, position and college. You can select from over 130 different universities, and all the big name

alma maters are represented. If you don't like the team you're playing for, select the Trade option and dump the losers. Now, if you can just get a company to endorse your personal line of sportswear...

MADDEN'S BACK!!

By Electronic Arts

Since November of 1991, Electronic Arts has produced the successful Madden Football series for the Super NES. The battery-backed Madden '96 is the seventh descen-

dant in the long and prosperous genealogy of football games. The series is recognized as a football strate-

gist's heaven on earth and is packed with an extensive variety of plays, tons of options, intricate details and an emphasis on strategy. While football fanatics usually run out and buy anything with an NFL or Players, Inc. logo, discriminating video game fans usually wait to see if a sequel sports game has major enhancements over its predeces-

sors. What makes this game different from Madden '95? Madden '96 includes the two feline football expansion teams, the Panthers and the Jaguars, and it has no teams from Los Angeles. Pass plays are revised to employ the L and R

Buttons, and now you can throw to five different receivers instead of three using the usual A Button, B

Button, Y Button commands. Larger letters designating receivers make it easier for the quarterback to read the field and unload the ball without getting sacked. Game fans still view fifty yards at a time downfield, but Madden '96 now uses a form of scaling on the gridiron. Football players shrink in size as they run down the field or loom larger as they charge to sack John Madden is teamed up with smiling Pat Summerall for game commentary. Player photos are highlighted after any big play (you see Summerall's mug if the pro's picture didn't make it into the game). Dazzle your opponent with new calls from the updated play book. The instruction man-

ual touts a selection of over thirty different stadiums, but observant gamers might conclude that the architecture is all suspiciously similar, especially when playing indoors. A long list of sponsors precedes the options screen, so starting the game up can take a minute. The endorsements get annoying quickly, and pressing the Start button won't speed up the process when you turn on the game. (Big Hint: you won't have to endure the

endless credits if you turn on the power then immediately hit the Reset Button and press the Start Button on your Control Pad until the option screen appears.) Madden '96 is stacked with options to customize the game to your individual style of play. Is Madden '96 innovative enough to score in the end zone of your entertainment center? The final call is up to you.

THE FINAL TECMO SUPER BOWL?

By Tecmo

Tecmo Super Bowl III: The Final Edition is the third football game produced by Tecmo for Nintendo football fans. If Madden football games offer strategy, Tecmo football games satisfy a player's need for instantaneous and extreme gridiron action. This is an arcade football game packed with bullet passes, explosive rushes and teeth jarring tackles. The linesmen don't just block or tackle, they slug it out with the opposing side. If your adrenaline isn't pumping after four downs, you'd better check your pulse. Tecmo Super Bowl III is endorsed by the National Football League and Players, Inc., which means that all of the authentic logos, player names and numbers are included in the game. Choose from three modes of play: Pre-Season, Season and Pro-Bowl. A battery back-up tracks your progress throughout the 17-week season. Died-in-wool Tecmo fans aren't overwhelmed by the small details of other football games: it's impossible to jump off

sides, there are only 16 offensive plays to choose from and you have a decade or two to pick your defen-

sive strategy. Watch the action unfold from a sideline perspective, 25 yards at a time. Eligible receivers off the screen are designated by arrows, but you won't have a clue about the defensive coverage around the receiver. (Hint: watch

"The linesmen don't just block or tackle, they slug it out with the opposing side."

While simple to play, Tecmo Super Bowl III does have enough customized features to meet the demands of football enthusiasts. Confounded by a quarterback controversy? Customize your plays and divide up the duties between your talented prospects. Assign your quicker QB to the run and shoot and use the best arm in shotgun formations. If you don't like the 16 plays in your play books, tear up the pages and revise your plans. Slap glue on your hands by turning off the fumble option. Final Edition includes a Super Star Editor, letting you create players or even put yourself in the game on your favorite team.

Weekly status reports track every yard covered by all the NFL players in the league. As a final added bonus, the finishing touches were made to Tecmo Super Bowl III before the

how the defense lines up prior to snapping the ball.) Don't be surprised if you throw a few interceptions. Cinematic action highlights key plays and spotlights outstanding accomplishments, but the animation is generic—the name won't match the face of the player on the screen. The emphasis in this game is not on the details, but on the fun.

Rams left for St. Louis, so this could be the only new football game with a team representing Los Angeles. If you've played and enjoyed Tecmo Super Bowl on the NES or Super NES, Final Edition employs many of the same design elements to ensure hours of fun. Just make sure you have a few weeks of spare time.

NHL '96 REVOLUTION

By Electronic Arts

Since Ice Hockey for the NES was released in March of 1988, hockey fans have spent hard earned money searching for the best game off the ice. The quest is over. NHL '96 for the Super NES is the Stanley Cup and grail of all hockey video games. This game doesn't just light up the goal light, it burns the boards and sets the ice on fire. NHL '96 has it all. The NHL and NHLPA licensed Pak includes all the players from the entire 1995 NHL season with updated official team logos. This is your last chance play as the Quebec Nordics (if you've been living under a rock, the team moved to Denver). And get ready for new innovations.

While hockey veterans might remember few changes between NHL '94 and NHL

'95, EA's latest hockey cartridge is a quantum leap beyond its predecessors. The realistic graphics and

o-rama, quick stops or the all-time favorite, check-your-victim off the ice. If that makes you mad, drop the

stick, throw off the gloves and duke it out in the fight option. Nailing the puck between the posts is tougher because of the enhanced AI. The cart also features an option that places you in the middle of the action,

even if you skate like BamBI. You can create your own hockey roster to add to your favorite NHL roster. Unlike some sports games that make minor improvements and update player statistics, NHL '96 exceeds the expectations of the most jaded video game enthusiasts. Game on!

sounds are incredible. Ice rink surface textures look so real they make you shiver. New sound samples announce face-offs, penalties and end of play. An echo effect replicates arena acoustics. A feature you'll quickly recognize if you've been to a real NHL game. Getting trounced by the computer player?

GREAT ONE OR RE-RUN?

By Time Warner Interactive

Since 1979, Wayne Gretzky has been recognized as "the great one," winning ten Art Ross Trophies and the title of the NHL's all-time goal scorer.

Time Warner's Wayne Gretzky and the NHLPA All Stars is a tribute to the hockey legend's accomplishments. This is the only Super NES hockey game to feature full motion video. The video highlights reproduce a rinkside version of an instant replay, complete with analyst commentary and crowd noise. All the players and statistics from the 1994-95 hockey season are included in this battery-backed pak.

Play exhibition games, an all star open tournament, or guide your

favorite team through an 84-game season. While the NHL is not associated with this game (no authentic team logos), there are 26 professional clubs to edit and rename,

"...highlights reproduce a rinkside version of instant replay, complete with analyst commentary"

including a new team from Denver. If you don't like your team colors, edit the player jerseys to suit your taste. Exhibition and tournament modes feature an additional six national teams from Europe and North America. A handy arrow cursor informs you of the exact location of a loose puck, and the player's

name appears when they have possession. If the going gets too tough, select from one of three levels of difficulty or fight it out. By selecting the intimidate option, you can start fights during a match up. NHLPA All Star's arcade fight mode is not like organized hockey games; the first player knocked down goes to the penalty box while the victor continues to skate on the ice. Select the simulation option to send both brawlers into penalty boxes. Gretzky fans will be thrilled to see Wayne's mug on every game menu screen. Is this game a winner? Does it ignite the goal lamp or merely glance off the posts? If you're collecting sports games and Gretzky is a god in your book, go for it. Otherwise, Power favors NHL '96 to win this year's Stanley Cup.

PASSING THE PACK

While unassisted goals look cooler than ice shavings, the odds of getting the puck between the posts in one-on-one situations are slim. Turn the statistics in your favor by passing the puck in front of the net before you shoot. Avoid the defense and maintain possession of the puck while the rest of your players move inside the blue line. Once the center, left and right wings are in front of the net, start passing. Frequent passing can confuse the goalie and set your team up for the winning shot. Just remember: this strategy works against you as well as it does for you.

FIFA '96 SERIOUSLY KICKS

By Electronic Arts

If you're a soccer fan, **FIFA '96** is essential equipment. This mega soccer game is stuffed with tons of detail. The Pak features over 237 unique teams in 12 different leagues. Pick a team and play in the World, American, Brazilian, Swedish, Malaysian, Italian, English, French, German, Dutch, Scottish or Spanish leagues. What could be better than having all these teams? Dig in your closets—**FIFA '96** includes the names and numbers of all the authentic players on these teams. That's 3,792

"This mega soccer game is packed with over 237 unique teams in 12 different leagues."

individual players ranked according to 14 different attributes, from reaction time to bicycle kick ability. If you've played other soccer games, like World Cup U.S. '94, you

already know that tons of detail can't compensate for lousy game play. Fortunately, **FIFA '96's** playability is one of the game's best features. Ball control and movement are realistic. An innovative strength gauge called a Power Circle surrounds the player with the ball, letting you know exactly how much energy you're packing behind your kick. Choose a team with accurate shooters, or dazzle your opponent with

speed and fast passes down the field. Team strengths are broken down and rated according to shooting, running, passing, tackling and attacking abilities as well as goalie quality. If you're completely overwhelmed by the reams of details, look for the "Overall" gauge at the bottom of the screen—it provides a

quick summary of a team's chance for victory. The playing perspective pans diagonally up and down the field, giving players a view of roughly one-sixth of the playing area at any one time. Passes and kicks are fast—so fast that the scrolling of the screen sometimes has trouble keeping the ball in view. Voice samples announce goals, fouls and throw-ins, but if you don't like the noise, the options menu turns off the music or sound effects. Do you live in a household of soccer fanatics? **FIFA '96** has a multi-player option for simultaneous action of up to five players at one time. You can split up the sides or let everyone play on the same team! Unlike other new EA titles, **FIFA '96** doesn't have an option to create or trade players, but to complain about this omission would be to split the finest of fine hairs.

KONAMI KICKS GRASS!

By Konami

Konami kicks up some turf with their latest sports title, **International Superstar Soccer Deluxe**. The password-locked Pak is stuffed with vibrant graphics and stunning sound. Action is the main ingredient and the flavor is overwhelming, and hypersonic kicks and agile footwork keep the game moving at a breathtaking pace. This is one of the few soccer games available that emphasizes ball control, allowing you the option of faking out your opponent as you work your way downfield. The chants and cheers of the crowd pump up adrenaline levels as the players stampede across the field. Player details are crystal clear; you can read the numbers and see the individual stripes in each jersey. A commentator keeps you up-to-date on the action, but his enthusiastic interjections ("GOOOOOOOAL!!!") get repetitive and stale after a few hours of play and the only option we found for turning off the voice was the television volume button. A transparent radar screen helps players keep the entire field in per-

spective, allowing for long kicks. Soccer Deluxe has 96 international teams and eight different stadiums to choose from. The team rosters are user friendly—smiley faces or frowns inform you of each player's condition and attitude. Substitute grumpy players for the ones having a good day, but remember that the best player's bad days can beat the worst player's hottest streak. You can choose from over 16 different team formations, and the game allows for minor line adjustments in all areas of the field. Each player's attribute can be modified, in fact, we found we could modify everything in the game except for the

player's name (the player names in International Superstar Soccer Deluxe do not resemble real life athletes in any league). Playing against the computer can be tough, even when the difficulty level isn't maxed out. Int'l Superstar Soccer Deluxe has a multi-player option, and up to four can team up against one another or gang up on the tough computer opponent.

GO AHEAD, MAKE MY PLAY

By JVC

JVC enters the video gridiron gridlock by teaming up with one of the greatest running backs in NFL history. Get ready for **Emmitt Smith Football**, a game not only endorsed but designed by the superstar himself. This battery-lacked pak mixes new innovations with many tried and true elements of previous football hits. Emmitt Smith Football includes instant replay, options to pass to three different receivers and an audible feature. Play selection screens and the thirty yard downfield perspective leave the old timers reminiscing about their first Madden games. An innovative Play Editor lets armchair quarterbacks create their own offensive or defensive plays or redesign any of the 60 plays in the game. Emmitt Smith Football is an easy game to play, too. User friendly game menus get beginning players up and running for first downs within

minutes of turning the power on. Pass plays are easy to complete unless you're up against a heavy zone. If a receiver runs beyond the view of the quarterback, a handy color coded mark-

"Emmitt Smith fanatics will go gonzo over seeing Smith's picture and hearing his voice every few minutes."

er tells you if the receiver is open or covered (green for open, yellow for single coverage and red for double coverage). The Play Editor is both detailed and versatile, but first time users may be intimidated by its complex features. Thankfully, the instruction manual has a tutorial section to get play designers started. Once you have a play drawn up, test it against various defensive or offensive formations.

Each custom play generates a password, so you can take it anywhere and play it on any Game Pak. Emmitt Smith fanatics will go gonzo over seeing Smith's picture and hearing his voice every few minutes. In addition to posing for photos on the menu screen, Smith interjects with praise or constructive criticism after good and bad plays.

If you're a big Emmitt Smith fan, this game is definitely one for your sports memorabilia collection. If you're looking for a football game with all the authentic players and team logos, you might consider other games endorsed by the NFL and Players, Inc. But if you've always wanted to design and test your personal plays stand up against the pros or just the neighborhood schmoes, you want to check this game out.

PLAY BY PLAY WITH EMMITT SMITH

Video games are like a second job for Emmitt Smith. He's been playing them for years. It only seems natural that Smith would combine his two favorite occupations into an action packed sports game from JVC. We managed to catch up with the NFL's premier running back and ask him a few questions regarding his new game, *Emmitt Smith Football*.

Nintendo Power: Tell us about your role in the making of *Emmitt Smith Football* for the Super NES.

Emmitt Smith: I enjoyed developing the plays in the game and I helped out with quality control, testing and playing the game at different stages. But drawing up the plays was the best part. As you progress in football from high-school to college to the pros, you learn how to add the bells and whistles that refine the plays. That's fun.

N.P. What is your favorite feature in the game?

E.S. My favorite feature in *Emmitt Smith Football* has to be the variety of plays. We put in 60 custom plays. That's a lot of variety. I've played so many video games that I know you need that variety to keep the game interesting.

N.P. Besides the Dallas Cowboys, what other teams do you like in the game?

E.S. Obviously, the 49ers are a great team, but I also like the Raiders. There's always been something about the Raiders that gets fans going—the Raider mystique. It's there even in a video game.

N.P. Any personal tips for players starting out?

E.S. Okay, you could probably guess this one, but my advice is to run the ball. In this game, it's easier to get the yardage you need on the ground.

N.P. What are some of your favorite plays in *Emmitt Smith Football*?

E.S. I like both the Lead Draw and the Slant. Why? These are plays that I run on the field. When you practice a play every day for real, it's easy to take that to the video game and execute it there. The better you know a play where the blockers are, what your job is and all of that, the better you'll run it.

N.P. Care to comment on the Dallas Cowboys' chances for the Super Bowl this year?

E.S. Good. Very good. We're executing well right now. As long as everyone stays healthy, we've got a good shot at it.

A Starship Of Your Very Own

As the newest (and most glib) recruit in the space corps, you're given command of your own starship and ordered to deal with the ever-arching threat of the Sultan of Slime and his gooey slug armada. Assisting you is Fido, your ship's canine computer and your best buddy. Fido is indispensable, outlining mission orders, helping you run the ship, explaining new items, and automatically beaming you back aboard when your life bar runs out. What a pal!

Medical Aid At Your Convenience

Your ship is equipped with the latest medical technology. If your life bar runs low, just beam up and use a health fruit icon at the first aid station for a complete recovery.

Recording Your Exploits

Though most of your missions aren't very complicated, there's quite a bit to do, so you'll want to save your game as you go along. The sleep chambers allow you to save up to four files, each showing your game time and current rank.

BIG SKY TROOPER™

All Rights Reserved

You're In The Army Now!

Following in the whimsical footsteps of *Zombies Ate My Neighbors* comes LucasArts' newest adventure title, *Big Sky Trooper*.

Though it looks and feels much like *Zombies*, *Big Sky Trooper* is aimed at a slightly younger crowd. Novice common-dos will appreciate the simpler puzzles, the multitude of clever power-ups and the HUGE life bar!

Warp Six, Fido. Engage!

The invading slugs have sabotaged the fabled Quantum Mechanics machines (you know, the machines that keep the universe from deflating and stuff like that), and it's your job to repair them. Fido will explain each mission in turn and pinpoint your next destination on the star map. Your first task at most stops will be to destroy any slug ships in orbit. Once the enemy grounds have been repelled, you can beam down to the planet surface to continue your mission.

Automate like game play is enhanced when you locate and install better engines and advanced weapons like space mines and punk torpedoes.

I Said, Beam Me Up Right Now!

Most of your time will be spent exploring the more than 100 planets in your sector, frying slugs and searching for items. Besides food and blaster batteries, you'll find upgrades for your combat suit, com-

puter chips for Fido and items you can use for barter at trading posts. Planetary conditions vary, and you may not be able to fully explore a planet until you obtain a specific suit upgrade. As you complete various missions, you'll be rewarded with a promotion and an increase in your life bar. Once a planet is declared slug-free, you can deploy a transport relay and use it to jump to your next destination.

Each planet is crawling (slurping!) with slugs, but the truly major boss lies underground. Navigating ropes and ladders becomes a nearly full-time occupation.

POWER-UP

Slip, Sliding Away

After you rescue the secret agent, he (or she—your character and the agent can be male or female) tells you to go to Arctos 1 to find the first star map chip. The planet's icy surface seemingly prevents you from reaching the maze entrance.

Find this small patch of land that juts out onto the frozen lake. Stand on the bottom edge and push onto the ice diagonally, down and left.

You can't steer on the ice, but if you launch from the right spot, you'll bounce around in a loop and up on the top shore of the lake.

Now push onto the ice straight downward like T and up on another patch of snow, and loon! There's just a few steps to the maze entrance.

GET OUT YOUR HANKIES

Miss Mind-Your-Manners here, with a warning to all my well-behaved readers about a horrid experience I had with my soo Johnny. He used to be such a nice boy, cleaning his room and using "shall" correctly. But suddenly his room is a mess and he listens to that dreadful rock 'n' roll music.

When I ask him to discuss opera, he blurtouts, "Boogerman! Interplay's five-stage slimefest featuring the stinkiest superhero ever. Eccentric millionaire Snotty Ragsdale dons the red cape of Boogerman and enters dimension X-cement to seek out the fiendish Boogerman. To fight evil and see that justice is done, he uses every bodily function and/or fluid known to mankind. Check out this 24-meg powerhouse if you want to slip-slide into a rollicking good time!" Sob! I have to run to the store oow. For some rensow, Johnny's going through a dozen packages of hankies a week!

LICENSE TO ILL

Batman has his utility belt, the Green Arrow has his quiver of arrows, and Boogerman has his er-uh-gastrointestinal tract. He reloads by chowing down on the four basic food groups: balls of mucus, beans, milk and red hot chili peppers. He'll even dig in

trash piles to get these goodies. Ever the good role model, Boogerman never tires of extolling the virtues of a healthy, balanced diet. Just be careful not to light a match when he's around!

THE FLICK

Your basic boogie bomb. Excellent for helping out low-level beef guys.

THE BURP

Often initiated but never surpassed. Power-up to a super loop to break through walls.

THE SPICY BURP

Ladies know never to kiss Boogerman after he's eaten a chili pepper.

PLUNGERS

Grab 20 plungers in a level to pile an extra life. They're often buried in trash piles, so dig it, man!

LOOGIE

Boogerman gets his best long-range attack after gulping a bottle of milk.

THE FRRT

Evades head for the hills whenever Boogerman needs a methane missile flying their way.

THE FLAME FRRT

Chomp a chili pepper for the special power-up, which allows Boogerman to fly!

WHAT A RELIEF!

Halfway through each level, Boogerman can leap on a brown platform and an outhouse will erupt from the ground. This is the perfect place to relax and freshen up. If Boogerman loses a life, he'll return here, instead of at the beginning of the level. He can sometimes leap from the outhouse roof to reach power-ups.

THE LONG AND MUCKY ROAD

NASAL PASSAGES

Always one to sniff out a trail, Boogerman "sneezes" the right way when he sniffs it. He can jump into a teleport room and be hives out somewhere else. Heederschieb, anyone?

DOWN THE DRAIN

Stand on a toilet with a dove arrow and push down to flush Boogerman into the sewers, where he'll find lots of yummy power-ups and another toilet that will return him to the level he came from.

FLATULENT SWAMPS

Boogerman begins his journey with a stroll through the slough. Down in the dirt, watch out for slithering snails and soldiers with spears. Ignore the carnivorous plants, though. Their bite is not nearly as bad as their bark! Once Boogerman takes to the trees, he'll have to dodge pesky bats. Just move fast and don't get bogged down!

LEVEL 1 Because green goonies appear suddenly throughout Flatulent Swamps, it's better to walk, not run, and be ready to flick at a moment's notice. When you come to a vine, you may wonder who greased it. Actually, climbing a vine is easier than it looks. Just hold Up while repeatedly pushing the B Button. If you see an enemy waiting at the top, simply stop pushing the B Button. Boogerman will slowly slide down the same slippery way he came.

LEVEL 2 As a child, Boogerman liked to watch Tarzan movies while eating heaping bowls of baked beans. Now he gets a chance to emulate his hero by swinging through the trees with the greatest of ease. If the bats don't drive Boogerman batty, he'll find lots of power-ups.

ROYAL FLUSH

A rare hidden high in this one will teleport Boogerman to a secret. Flame fire around the sewers to find four secret and extra lives.

DIG THAT DAIRY

It looks like the milk men got confused and left his delivery behind this pile of rocks. A super leap or fist is as good as a jackhammer for finding your way to this iceple leader.

DAIRY DERRING-DO

A trail of vines leads to a milk bottle hidden high in the last tree in this level.

GET A LIFE

Leap into this tree at the end of Level 5 to grab an extra life and 100 points. A janky guard will try to block your way.

LEVEL 3 The plot—and a few bodily fluids—thicken as Boogerman delves deeper into the stinky depths of Flatulent Swamps. His newest enemies are ghosts that drift over the landscape like swamp gas. A simple hutz whoomp will often spirit them away. As always, slimy snails and spear-wielding guards are green with envy for Boogerman.

GET DOWN TONIGHT

Danger! Danger! Low-flying bat! Give years of time to react to airborne rodents by avoiding slowly when you're way up here.

LEVEL 4

Keep a close eye on the Boogerman's cape, which indicates how much energy he has. Yellow is the warning color. Start searching around for a red cape, which will restore his energy. If Boogerman has full energy when he finds a cape, he'll get a super charge and be able to absorb three hits before losing a life.

BRANCH BANKING

Search carefully behind all trees for hidden power-ups. Watch out! You don't want to fall to the ground below, where spear-wielding guards would love to take a poke at you!

HIGH ROAD

If you've gotten to this point, stay high in the branches while the bats hit by themselves below.

TOOT LOOT

Another milk bottle and more points are stashed behind the tree near the exit from Fleascent Swamps. The milk bottle will help Boogerman spit and polish.

HICKBOY

There's one more thing you need to check about the cunning, skilful Hickboy: he's eggs and the deadly Chickenswing at our beloved hero. Ends those antics by jumping onto the branches and flicking insects at Hickboy. When done, down and fire a super jet. Don't choke out or you'll wind up with egg on your face!

THE PITS

Follow the yellow brick road—or, green intestinal tract. Interplay has loaded up this section with lots of ear wax, zits and other stuff that game-makers usually air-brush out. Besides tangling with the usual assortment of green monsters, Boogerman will have to pick off running scabs if he wants to make it through this yucky area in one piece.

LEVEL 1

Watch out for the dips in the road, where hopping mad monsters wait to ambush Boogerman. Fortunately, their noisy antics will often tip you off before you stumble onto them. Keep climbing by tramping on the trampolines. Be careful of where you wind up, though. Waiting monsters would love to see you make a crash landing!

SWING TIME

You can test a garbage-truck full of power-ups, including an extra life, by swinging on hidden ropes at the top of this level.

LEVEL 2 Instead of going directly to the toilet, head for the straight-away next to the first trampoline. Once there, dig in the trash pile for a chili pepper. Then it's time to go to the sewers, where that extra rocket boost from the pepper will save you from sinking in the slimy depths! The pepper will be back in the same place when you return. Try to keep it as you finish this level. It won't be easy, though. Take just one hit and you'll lose your precious flame power!

LEVEL 3 Trouble comes in small packages when you're traveling through Dimension X-cement. At all times, be extra wary of little hounding monsters. Appearing in teams of two or three, they move fast and are hard to hit. If you try butt-whomping these pesky fellows, you'll probably miss, and then they'll get you! Try flicking, burping or friting at them instead. These monsters are even nastier in the sewers, where they climb out of manholes and lurk on ledges and pipes!

GROTTO GOODIES

It's time for some more rope-swinging. This treasure trove that includes an extra life.

SCHLEP THAT PEPPER

Remember the chili pepper that you so carefully saved from Level 2? It will help you get two extra lives high overhead in this level. One is high above the first trampoline on your path, the second is just after the exit toilet.

er recto will take you to a

LEVEL 4

Warning! Warning! You are now entering the Pit of the Piss! Don't be too quick to detour through the sewers, though. First, check out the area between the two toilets for a trash pile containing a chili pepper. There's a chili pepper in the sewers, too. Don't be too hot to burp off these babies. They'll come to bandy when you come face-to-ugly-face with the repulsive Revolva. Whenever you return from the sewers, you'll find all the power-ups in the level replenished. Even the extra lives reappear for your burping pleasure.

POINTS PITFALL

Level 4 is fairly straightforward, but there's a hidden bonus area near the end. See that little red sign flashing about just below you as you wig out of the Piss? It's your clue to push down to grab some extra points.

REVOLTA

Roaring for a hot date with our farts, the wicked witch of the Piss exhales Lightning Breath and flits away with her Ugly Stink. Flick, fart and burp until you face hot to org. "I'm melting!"

RELAX AND REVIVE

The final stretch leading to the next begins in a cave that contains a hidden extra life. Watch out for the guard, though!

STICK TO IT!

You've only just begun to explore the dirty depths of Boogerman. It's time to take some night air by strolling through the lovely burg of Boogerville. Then, catch the spectacular view from the Mucous Mountains and cavort through Nasal Caverns. All the time, Boogerman is salivating for his final stop: Pus Palace, home of the nefarious Boogermanmeister!

BOOGERVILLE

Ready for some night life? Want to paint the town green? Ahhh, but some icky guys want to spoil your fun. You'll also get your first look at the Boogermanmeister, whose ugly mug graces campaign posters. And avoid saliva lake. A dip there could be your last!

ROPE HOPE

Jedging from all the scaffolds and dangling ropes, Boogerville looks like a town under construction.

THE NOSE KNOWS

Boogerman will spend a lot of time following the proboscis trail. If he gets lost, he can always go back up where he came down.

PICK YOUR ENEMIES

These nosed monsters hold their breath until they burst, allowing you with toxic gas.

NOSING ALONG

Fresh mountain air makes Boogerman want to hurp! While hiking and admiring the saliva-falls, he'll have to watch out for the rams that want to hurt him into the valleys

below. Next, he'll delve deep into Nasal Caverns, where some many miners would like to make sure he never sees the light of day again!

SQUARE ON SGI

Square Soft recently exhibited some awesome animation at SIGGRAPH, the computer graphics convention in L.A. Although the buzz word was that the animations were taken from Final Fantasy VII for the NU 64, Square didn't confirm that. The incredible looking polygon graphics were, in fact, of FF VII characters. Square also demonstrated

how it created the figures using wireframes and texture maps on Silicon Graphics Oxyx workstations. In the January issue, we'll be able to report on what was actually shown at Shoshanka, which takes place at the end of November. In the mean time, Epic fans can't be surprised to hear that Square's animation goes where no game has gone before. (Square seems to be making a habit of that.) Your Epic Center editors got to view a special video of the animation. It featured extraordinary polygon characters that moved about and fought in an open 3-D world. Background elements clearly showed high quality texture mapping on poly-

gon surfaces. A dragon swooped in over the combatants and then a castle blew up in the most realistic computer generated explosion we've ever seen. This was light-years beyond any RPG graphics to date. If you thought the Nintendo Ultra 64 was just for action games, fighters and flight sims, think again. Well done adventures and RPGs will perhaps be the most impressive of all the new breed of 64-bit games.

MARIO UPDATE

Sometimes life is especially sweet for Epic gamers and this is one of those times. A sixty percent completed version of Super Mario RPG magically appeared at the Epic Center desk and proceeded to stun everyone who saw it. The biggest surprise was that there was an actual RPG battle system, contrary to what we had heard earlier. Mario does stomp on enemies, but that only launches the battle screen sequence, which turns out to be menu-based,

as you can see, have been rendered in 3-D just like the rest of the game and attack animations include the use of weapons when they are equipped. Another welcome surprise turned out to be the ease of moving about in the three-quarter perspective world. Mario easily dodges enemies and he also gets to jump up

and hit scattered blocks for power-ups and saves. During visits to town, Mario talks to people, buys items and learns secrets just as in a standard RPG, but the 3-D graphics shine and Mario does more than previous RPG characters, even highly animated heroes such as Crono. Mario, for instance, bounces on beds, gets hung up on coat hooks and falls flat on his face. It's fun and a little weird, but it's definitely Mario and an RPG. The current release schedule for the U.S. looks like late February.

(The adventure began with a note from the King.)

WELCOME FRIENDS! I WOULD BE HERE TO GREET YOU PERSONALLY, BUT I LEFT THIS MORNING ON A MISSION THAT REQUIRED MY PERSONAL ATTENTION... YOU MUST PROVE YOURSELF TO ME BEFORE I GRANT YOU ACCESS TO THE CASTLE. GO TO THE DESERT JUST TO THE SOUTHEAST OF HERE, AND PROVE YOUR WORTH!

SINCERELY YOURS,
KING GOLBERT

(An adventurer named Cyrano began timidly, but his story soon developed into one of the most interesting in Wizard's Realm.)

CentriRain

Cyrano timidly walked up to the door of the castle. Upon reading the note on the door, he set off to the desert on foot, relieved that he wouldn't have to meet the king face-to-face, especially with a face like his.

(Later, Cyrano met up with Peach and the man and magic dog headed out to sea.)

CentriRain

Peach jumped up onto some pilings while Cyrano asked the man, "Sir, can you perhaps tell us where the shrine

is? We seek the Sword of Truth, and have heard that it lies hidden on this island in a shrine."

"Yes," said the old man in a surprisingly young-sounding voice, "I can tell you where the shrine is."

"You can?" asked Cyrano, surprised.

"Where is it?"
The old man spread his arms. Cyrano was even more surprised. "This? This is the shrine?"

(HurtyHand and CentriRain used the same characters to advance the story and set puzzles for each other.)

"NOT EVERYONE IS J.R.R. TOLKIEN, BUT EVERYONE HAS SOMETHING INTERESTING TO SAY." - Rowley Coop

HurtJH

Inside, they found sights of total horror. Peach was stunned speechless while Cyrano stared at the many skeletons inside. They saw what looked like a building inside the whale. They knew it must have been part of the shrine swallowed whole, protected by the magic of the Sword of Truth. They walked towards the entrance, as forbidding as it looked. On the door was a note:

INSIDE LIES THE MIGHTY SWORD
OF TRUTH.
ONLY THE JUST AND TRUE PERSON CAN
WIELD IT.
BE WARNED, THOSE WHO DO NOT PASS
WILL DIE.

(Puzzles became a central part of the game for many players including Dred33 whose party of adventurers ran into the evil Magnus.)

Dred33

"Evil reversed, evil reversed, EVIL REVERSED! Man, how hard IS it to kill a dead person? Wait a second..."

Jaison thought about what he had just said. Magnus was already dead, therefore, to kill him again he would have to be...

"That's it...evil reversed...Saying 'evil' backwards is...live...LIVE!"

(Tasks in Wizard's Realm took many forms. One player might set a task for another while some players invented tasks for the others, then carried them out.)

FF3man3994

Fritz finally found the man when he got to the rift. "I came to this land to see if you had the right to take the legendary light dagger. I

heard you had collected the five magic tools. Give me them now."

Fritz handed the man the magic wrench, the magic hammer, the magic drill, the magic screwdriver, and the whatcha-ma-call-it light bulb he got from Orfeo. The man threw them into the sky. Fritz thought they would all fall, but they floated past the clouds. A shining dagger came down out of the clouds and down to the ground. "This is the light dagger," said the man.

(Nothing is ever quite what it seems in Wizard's Realm, even after the defeat of Moldrin, the end seemed in doubt.)

DragonX099

"So, you two kids killed the great Moldrin. Now how did you manage that?"

"Well, I guess you could say we got lucky." Darwin answers

"Congratulations to the kids who defeated my old greaser of an enemy," Golbert laughs.

"My Liege, Moldrin wasn't that old," Lufta states.

"I know, but King Golbert WAS" And King Golbert's form starts to change as he laughs endlessly. Finally, he stops laughing and Moldrin the evil soccerer appears before them. "You fools, You killed the King! hahaha..."

This month, Epic Center features a guided, strategic tour of the first half of Square Soft's incredible new adventure, Secret of Evermore. The dangers may be chilling, but you'll never even feel a draft if you stick to our proven strategies.

SECRET OF EVERMORE™

THE HERO OF PODUNK

The young hero of Evermore begins his adventure in a theater, ogling the make-believe heroes of Hollywood. Throughout this 32-megabit game, the boy compares his harrowing adventures to the fictions he has seen on the silver screen. But Secret of Evermore goes far beyond cinematic fantasies. In the fantastic worlds of Evermore, the boy and his dog face puzzles, chaos, battles and tests, not to mention the evil manipulations of an unseen enemy. Brawn and brain must be used in real-time action that will be familiar to veterans of Secret of Mana or the Zelda series. You'll play as the boy and his dog, switching control between the two or raising their strength and experience as you go. It's a

game you'll want to play forever more. Square soft may have started out with a Mana look-alike, but in the end they created a unique game that is bound to be a classic.

BEDAZZLED

The scene is set when the boy automatically walks into the mansion in Podunk, where the Professor's dream machine comes alive and zaps him and his pooch to the alternate reality of Evermore. Briefly, you'll meet Carltron the butler and Professor Ruffenberg, then you'll find yourself in an empty chamber. Touch the golden dome by using your B button to retrieve the bazooka. The first battle teaches the basics. Aim and push B to fire at the two flying robots. Wait for the power meter to fall back up to 100%, then fire again. You can't take damage here. It's just practice.

BUNGLE IN THE JUNGLE

After landing in the jungle, a wolfish dog appears, who proves to be your canine companion. The bone he fetches for you becomes your first weapon. Use it as often as possible in order to build up its power. Take time to whack every plant and mosquito in the jungle. In the raptor clearing, keep on cleaving the dinos with the femur as long as you can. Even if you fail, you will end up in the village of Fire Eyes.

JURASSIC JUMP

Raptors, something like those in Jurassic Park (although not quite as deadly), hide in the four bushes in the clearing. They move like lightning and strike with bony—spurs on their feet.

Control the boy directly and set the dog's Action function high on the Fight scale. One raptor attacks at a time. You can flush them by beating the bushes with the bone. They move fast, but you can outmaneuver them and whack them in the side or back.

There are four raptors to dispatch, but don't worry if they get the better of you, because you'll end up in the village no matter what happens.

Are you OK, kid? You look quite a beating out there!

Oh, hi. My name's Elizabeth. Evergreen around here calls me "Fire Eyes."

STRONG HEART'S BRO

One of the huts in Fire Eyes' village is home to Strong Heart's brother. If you visit him, you'll learn that Strong Heart went into the swamp looking for the craft bug that makes your gear, too. You can buy alchemy ingredients from him: Wax, Wax, Oil, Crystal, and Ash.

My brother, Strong Heart, told me that he was going to look for the big bug in the Bugmuck.

HARD BALL

Strong Heart's brother also teaches you the alchemy formula for Hard Ball, an attack that uses one part Crystal and one part Clay. For every Crystal and Clay in your possession, you can use the formula once against an enemy. Alchemy formulas become much stronger with repeated use. If you take some time to fight with Flash and Hard Ball early on to build up their power, it helps out later when you really need them.

Let me give you the Hard Ball formula. It's an effective weapon.

FIRE IN HER EYES

Elizabeth created this prehistoric world with the help of her uncle's machine, but now she can't escape. Her village contains plenty of helpful people, shops for armor and alchemy elements, and an inn for restoring your HP.

BUG HUNT

Strong Heart the alchemist has been missing for days in the steamy Bugmuck to the east of the village. Your job, if you choose to accept it, is to storm the Bugmuck single-handedly and find Strong Heart. It's that simple...or is it?

If you can help him get back to the village, I can help you with whatever you need.

BUGMUCK WAY

The path to the Bugmuck lies through jungle, desert and swamp. When you defeat foes, you'll earn Talons, which can be used to buy items. In the desert, step into a sand whirlpool at least once in order to find the hidden shop.

HEART OF DARKNESS

The heart of Thraxx is the monster's weakest spot. Rap on its ribs with the Bone Crusher, then duck inside close to the heart when the ribs spread open. Use Flash and Hard Ball against the heart repeatedly, healing yourself and the dog with Petals and Biscuits as required.

Identical or indeed, thank you for saving me!

THE BIG CHILL

Following your glorious victory over the bug, you'll win the Spider's Claw axe and get new alchemy formulas from Strong Heart in two locations, behind a cliff and south of the village. Upon returning to the village, you'll find that the local volcano has shut down and the world is growing colder. Your next mission will be to worm inside and turn up the temperature. Get some sleep before heading out, and buy lots of alchemy ingredients.

"I hear you were victorious in the far reaches of the Icegrotto."

"The volcano to the north is rapidly cooling down."

VILE VIPERS

North of the village lies the Mammoth Graveyard where you'll run into trouble in the form of vipers. The reptilian ruffians rumble and roll, but you and the dog are more than a match for them. Go to the left side of the graveyard and wait for the vipers to come within range. This is also a great place to build up your attack formulas.

"You triumphed in our battle, Lord!"

ALL STEAMED UP

As you move through the jungle beyond the graveyard, you'll come to a cave where a boulder blocks the way. You'll need the Levitation formula to lift the rock. Look for the cliff of caves and use the steam vent platforms to blow yourself to the lowest ledge on the left, then take the right vent to the top.

HORNING IN

Defeat the silver Viper Commander using Hard Ball and Flash. After beating him, you'll earn the Horn Spear. Practice jabbing the spear at the spiders in the area just ahead. The spear may be more powerful than the Claw axe, but it's harder to use.

MAMMOTH GRATITUDE

An alchemist appears above the mammoth skull after your hard-fought battle with the Viper Commander. He'll give you clues about your mission to the Icegrotto, suggesting that to get inside, you'll have to go through its bottom, and the trick is always molasses. But before you can touch the volcano, you'll pass through the mammoth's skull into a new jungle area filled with swift reptiles and plants that actually swallow boys and dogs.

"Thank you for fighting off those vile Vipers."

"The Eyes of the Spider King for more."

THICK SKINNED

Venture into each of the caves. Even if you have to

Fight it's worth the effort, because in one cave you'll win the Dino Skin armor which boosts your defense by seven.

LAWNMOWER BOY

In many areas, you'll have to cut grass and bushes to proceed. Both axes and spears can be used to mow down the barriers. It's a good idea to cut down all the plants in an area to see if anything is hidden there.

ON TOP OF OLD SMOKEY

When you hear growling, or see the dragon vents and jets, you may be surprised to find an alchemist cooking up a pot of potions. This follows good ol' levitation and explains that the Molepups are still around, but he'll be in the tunnel to the south. We couldn't see what happened.

Uh, hi. You shouldn't have been to get into the volcano from here, would you?

SWAMP THINGS

Frippos and spiders pose the biggest threat to your health. It's easier to use the axe to squelch the pests, but use the spear to build up its strength. Take the southern route, crossing long rows of lily pad, to reach the snake.

SALABOG

Salabog rises from the mire and attacks with Will-O-Wisps and great fangs. Don't waste your Call Beads on the serpent. Instead, stand in the middle of whichever bridge is closest to Salabog. When the snake lunges forward, strike it with the spear. Also, the dog should be at his most aggressive setting.

THE BLIMPSTER

After you finish with the snake, a huge spider-like creature will attack and the dog cages will be destroyed. Don't go getting that one either. You should concentrate on the snake and a few Call Beads. But the only thing you really need is the very little party in the Molepup's lair. In the Levitation tunnel, you'll find the Molepup's lair.

That beast was about to suck up my butt, and me with it!

IT AIN'T HEAVY

Return out of the mammoth's mouth to the cave that bores into the mountain. The Levitation spell lifts the rock, but don't enter until you stock up on ingredients and items. The battles ahead include endless meetings with vipers and a final confrontation with the hot-tempered Magma.

WILD WAVES

The water maze may drown your enthusiasm for bathing, but you have to ride the waves to the dripping end. The key is to hit the switch that opens the gate. Take the series of pipes that loop around to the far left in order to reach the pit marked with the switch symbol.

EPIC REVIEW

MORE MUDPEPPERS

Inside the volcano, you'll have to use Levitation to move several boulders. The lava maze includes all of the Mudpepper's you'll need, but reaching them can be tricky.

Look for boulders resting on the edges of cliffs. When you push the rocks into the lava, they'll form bridges to new areas.

LIZ'S EVIL TWIN

Elizabeth, or Fire Eyes, shows up at the center of the volcano along with her mysterious evil twin. The twin orders a lava monster named Magmar to attack. Magmar heals himself continually by popping back into the lava. Use Acid Rain and your spear from close range. Keep your dog attacking and use the Call Beads. Dog biscuits are worth their weight in gold here.

BLOW THE JOINT

If you cool off Magnar, Fire Eyes' evil twin reappears to let you know that this isn't the end of the matter. Then the volcano blows, launching you and your dog high into the atmosphere and far apart from each other. Fortunately, you'll have a giant shell for protection when you land in an unknown quarter of Evermore.

ALL WASHED UP

You'll wake up on a beach alone, wet, and without a clue. Stop at the shipwreck and talk to the friendly mob of sailors whose tongues wag with tales of treasure. Be sure to explore the wreck fully. Earn jewels quickly by repeatedly defeating the Mad Monk just east of the shipwreck. Each time you beat the monk, you'll earn 75 jewels, which you should spend on armor.

BLIMP IS BACK

When the balloon goes up, Blimp is back. He's still in the air, but now you can see him in the sky above the city. His shadow on the ground is a clue to his location. If you see a small red balloon, it's a sign that the balloon is nearby. If you see a small red balloon, it's a sign that the balloon is nearby. If you see a small red balloon, it's a sign that the balloon is nearby.

Hint: Try to find the red balloon in the cave.

NOBILIA

Gone is the wolfish canine of Prehistoria, replaced by a sleek desert hound. Appearing magically in the palace fountain, you will find yourself drawn toward the palace. Go inside and sniff around. You'll learn a thing or two about the sacred dog and the Diamond Eyes.

INSIDE INFO

Pompolonius has posted a handsome reward for the recovery of the dog statue's Diamond Eyes. It is believed that when the sacred dog appears, it is a portent that the statue will be restored. Guess what your next mission is?

The people will not support your actions unless you promise to give them the Sacred Dog.

EPIC REVIEW

THE SURVIVAL KIT

The city of Nobilia presents a grave danger to unprepared travelers. Before crossing the desert, heal up your character and supply him with as many items and ingredients as you can afford. Also, buy the bronze armor pieces and equip them. Bling gives you the Crush formula before you leave. Use Crush on the enemies outside his cave in order to boost his power.

Before you take off, I want you to have the Crush Formula.

The city of Nobilia is the best place to buy.

THE SANDS OF NOBILIA

The desert winds hold many secrets for unwary wanderers. Spiders and thorny tumbleweeds sweep in from every direction. Your best bet is to run due north, stopping only at the green oases along the way. Once you reach Nobilia, you can purchase Annihilation Amulets for a reasonable price, making the return trip to the desert a much easier one.

It's time for you to find your path and for me to continue my studies of things lighter than air.

I hear that there's a great city on the far side of the desert, in the north.

CHOOSE YOUR POISON

There are two methods for crossing the treacherous sands of the Nobilia desert. You can hoof across the burning dunes, risking attack by spider and thorny tumbleweeds, not to mention the effects of the sun. Or you can pay the skeletal Ghost Pirate one Annihilation Amulet and he will row you safely to your destination. The Amulet costs a ransom on the coast, but you can trade for it cheaply in Nobilia.

Hey, child. Do you want a RIF? Sure. Not right now.

What's your name?

DUE NORTH

Far across the burning sands lies the city of Nobilia. Run straight to the north. Four oases mark the route to the city, but between the green havens lie desert dangers. The entrance to Nobilia lies on the west side in a bend in the wall.

CRUSH CRITTERS

Build up your alchemy and weapons levels by battling desert critters. The big fight in Nobilia goes much faster with greater offensive strength. As your alchemy formula levels increase, so will the powers of the helpers whom you call with the Call Beads.

NOBILIA MARKET

Trade items to obtain the special pieces of armor and weapons. Each booth's owner specializes in one item, which you can trade for another item or combination of items. Some deals are steals and others are ripoffs.

THE SECRET WORLD OF SPIDERS

Go south of the plaza with the dog statue and enter the building with the spider inside. Follow the spider into the corner and a spider appears and tells you that you're a penny working. Then he offers you

the *Annihilation* of strength, which requires the *Annihilation* set so happens that he lets you for sale for only 100 Jewels. After that, the *Annihilation* go up in price by 50 Jewels each time.

You're a skinny little god, aren't you? You need some meat on your bones.

A ROOM AT THE INN

When you first arrive at Nobilia, the entire market is bustling with activity, but it seems as if the whole place will close down in a minute or two. In fact, it will. A meeting has been called by the ruler. Don't worry about trading for special items until after your upcoming fight. Instead, get some sleep to restore your health, then go to the plaza to find your dog and avert your terrible destiny.

MAN'S BEST FRIEND?

Fate's fickle finger points at you and then thumbs its nose when Potapopolomous releases the so-called sacred dog in order to choose an opponent for Vigor, the gladiator. Your dog, transmuted into the white hound, sniffs you out of the crowd and greets you with affection. Thus are you singled out to face the mighty Vigor. Suddenly the guards haul you off to prison. Is this any way for man's best friend to treat his master? Fortunately, the dog gets a chance to redeem himself before the big fight.

A TINY FRIEND

Back in Crustacia, you may recall meeting a crusty old salt who spoke of his brother in Nobilia. Tiny the Barbarian is that brother. The not-so-tiny Tiny has the strength of many men, and he's fond of tossing stones North of the market in town, you'll find a stone, which you levitate. Tiny will step in and fling the rock away if you give him a tapestry. Later, when you approach Blinap's cave, the falling stone will create a path to the vases on the lower ledge.

LOCKED UP

In preparation for your duel with Vigor, it seems that the authorities, who are unaware of your heroic achievements, believe it is necessary to lock you in prison to keep you

from running away. There's no chance to visit the inn or buy items, which is why you need to be prepared for anything before going to the meeting in the plaza.

A FRIEND IN NEED

It turns out that your four-footed friend is not such a worthless companion after all. Sure, maybe he got you into this mess, but he'll also help you get out of it. Follow the dog as he sniffs about the prison. First, he'll detect the scent of the Stone Vest in a pot. Then he'll uncover a secret passage that leads to more armor. Equip these items then, wait for the games to begin.

THUMBS DOWN FOR VIGOR

Vigor the gladiator charges about the Colosseum in an iron chariot car. He'll ram you and attack with a vicious boomerang. To make matters worse, the crowd hurls curses and garbage at you throughout the duel. You can defeat Vigor with lots of powerful alchemy formulas or by finding the safe spot at the west end of the colosseum about halfway up. Each time Vigor charges, he'll turn just before reaching you. That's the moment to hit him. The safe spot is also safe from the stuff thrown by the crowd. If you're patient, you won't take a single hit.

MORE EVERMORE

The previous pages contain the trading information for the market so you can prepare for the next stages of the game by trading for armor and weapons. Then, next month's continuing coverage of Secret of Evermore will take you beyond Nobilia to the quest for the two Diamond Eyes and the awakening of the great dog statue. We'll also visit the strange worlds of Gothica and Prof. Ruffelberg in Omnitopia.

CHRONO TRIGGER™

We continue our coverage of Chrono Trigger with a special expanded edition of Epic Strategy, highlighting some of the time traveling tricks and examining the different game endings. With more and more secrets being revealed all the time, this role-playing sensation just keeps getting bigger and better!

ACTION AND REACTION

Chrono Trigger has literally hundreds of people, places and things to keep track of, and your actions have an enormous impact on the way the history of the world unfolds, and vice versa. You should always talk to people after you visit

No matter what happens, your goal is to destroy Lucca.

a new time period or complete a task. You never know what new clue may surface or what significant change may occur. Remember that you're traveling through time, and the smallest act may sprout great consequences over the course of centuries. Though your ultimate goal is to defeat the monstrous Lavos never changes, the situations, people and places that you've come to know may change, depending on

what you do. Will you succeed in your missions, but change something or someone close to you in the process? Can you be sure what you're doing is right? Only time will tell!

Spekkio

No one knows who or what the mysterious Spekkio really is, but he waits patiently for you at The End of Time. When you first encounter him, he'll teach you magic and enable you to learn more than two Techniques, expanding your attack options. Be sure to bring new party members to him, so that they, too, can learn the ways of magic. Spekkio also tests you by challenging you to duels throughout the game. If you're victorious, he'll

reward you with various Tabs, Ethers and Elixirs. As you grow stronger, Spekkio challenges you to keep pace with you, and offer you greater challenges and rewards. You'll receive only one set of rewards for each form you defeat.

Gaspar

Gaspar is the old man at The End of Time, and he'll occasionally give you clues about your current task. After you bring Crono back to your party, he'll say that you should "help someone close to you." Even if you complete a number of different optional missions, he'll still say the same thing.

Lucca's Mother

While you're struggling to save the world, Lucca's mother accidentally gets her legs caught in a machine, but you can prevent this tragedy. After you defeat The Black Onyx, the Bankers Desert will appear next to Fionia's House in 600 A.D. Defeat the skeleton there, then go

to Fionia's house. Robo will stay behind to work on reviving the forest. When you return to Fionia's house in 1000 A.D., you'll find that it has become Fionia's Shrine, and that Robo is still there. Be sure to save your game at this point. Now take Robo back into your party, and you'll be transported to a campfire scene. Lucca announces that she's going back in time to save her mother. Once inside the house, you'll find a

note on the kitchen table that reads, "Lucca's mother's name is the password." Enter the living room to see Lucca's younger self and her mother. When Lucca's mother's legs get caught in the machine, the game will ask for a password. Press L, A, R and A to stop the machine. This may be difficult to do, and you have only one chance to enter the password correctly. If it doesn't work, you can start over from your last save point. If you succeed, you can return to 1000 A.D. to see Lucca's mother walking around her house, a picture of perfect health!

If all the conditions are right, you can prevent a horrible tragedy from happening.

The Mayor and the Moon Stone

Though it's not necessary to complete the game, the Moon Stone is a precious item, nonetheless. This seemingly harmless hunk of rock can be transformed into the incredible Sun Stone. It will take a lot of maneuvering to change the Moon Stone into the Sun Stone, but it will be well worth the effort! After you destroy the Blackbird, go to the Sun Palace in 2900 A.D. and defeat the Son of Sun to get the Moon Stone. Take the stone to the Sun Keep in 66,000,000 B.C. and place it on the spot where the sunlight shines down. Upon your return to 1000 A.D., you'll find that the stone is gone! The Mayor now has the Moon Stone, but he's a greedy sort and won't give it to her

It's a lot of money for a piece of Jerky, but it's worth it!

anything! Is there any way to change his mind? Perhaps if he was taught better manners as a child, he might give the stone to you. Buy some Jerky at the Scall Stop in 1000 A.D., then travel back to 600 A.D. Once there, go to the Elder's House and give the Jerky (don't Sell it!) to the woman inside. She's the Mayor's ancestor, and because of your act of kindness, she'll teach her family the importance of generosity. This lesson will be passed down through the ages, and when you return to 1000 A.D., the

Mayor will give you the Moon Stone. While you're in 1000 A.D., place the stone back in the Sun Keep, then leap ahead to 2900 A.D. In the ensuing years, the Moon Stone will transform into the Sun Stone. Lucca can combine the Sun Stone with other objects to create awesome weapons or items, including the Rainbow Sword, the most powerful blade in the game! The Sun Stone can be used only once, so be careful when you do with it!

Fair Game

The *Temple of Horos*, otherwise known as Noncin Beckler's Lab, may seem like mere window dressing for the game, but one of the attractions actually has a very important purpose: to help save Crono from certain death! The prize for winning the 40 Silver Point Game is a Clone of Crono. You may not realize it at first that the Clone is an important item, since it is automatically transported to Crono's room and not carried in your inventory. At some point during the game, Lavos will destroy Crono with a blast of magic. The rest of your party will soldier on without him, but after several adventures, you'll find an opportunity to change history. If you proceed correctly (see pages 68-69 for the correct sequences), you'll appear at Crono's

When you need it, you'll find the Clone in Crono's room.

side mere seconds before Lavos's magical bolt hits him. You can then substitute the Clone for the real Crono, tricking Lavos and saving our young hero from destruction. Crono will rejoin the party ready to seek out Lavos for the final confrontation!

NO TRAVEL NECESSARY

You don't always have to go gallivanting across time and space to collect useful items. Some of them will appear right under your nose as you complete other tasks.

Jailhouse Treasure

No matter what the verdict is at your trial, chances are you'll end up cooling your heels in the Castle Tower. You can make a break for it, but don't bolt until you collect some of the goodies left behind by other hapless prisoners. Exit the first

These new weapons and accessories will come in handy.

section of the Tower by the upper or lower path. Either way, you'll end up in the second cellblock. Find the cell with a hole blasted in the wall that leads onto a ledge. It seems like a dead end, but

you can climb up and down at certain spots along the wall. You'll find more holes and gaps that lead into other cells, some of which contain valuable treasure.

The Silver Rock

The Silver Rock is located in Anaba Village in 65,000,000 B.C. During your exploration of the ruins, talk to Nu in the upper right corner. The Silver Rock allows some party members to invoke the Triple Technique SpinStrike.

The Gold Rock

The Gold Rock is in the Dorano Mountains in 600 A.D., the same place you obtain the Musamune Sword. Move Frog to the front of your party and go to the spot where Free Lancer (the bird) throws rocks at you. Frog will get pecked by a few of them before he catches the Gold Rock. This rock allows you to invoke the Triple Technique Grand Dream.

The Black Rock

The Black Rock is secreted within the Zeal Palace in the Sky in 12000 B.C. Enter the first town and open the tomes in the following order: Water, Wind and Fire. This reveals the door to a hidden chamber. If you destroy the Ocean Palace and the Zeal Palace falls to earth, the Black Rock will be destroyed in the crash. This rock allows you to use the Triple Technique Dark Eternal.

CHRONO TRIGGER™

Warning: The following Epic Strategy feature details how to reach most of the endings in Chrono Trigger.

If you want to discover them on your own, then skip this article. You've been warned!

ALTERNATE ENDINGS

One of the most exciting aspects of Chrono Trigger is its multiple cinematic endings. While multiple endings are nothing new, they have shown up most often in action or fighting games, and have been dependent on obvious factors like the number of lives lost or continues used. In the case of Chrono Trigger, any number of factors will determine which ending you see. Most of the endings are quite different from one another, and rather than just taking the same basic ending and changing a few details, the developers took the opportunity to show different characters and aspects of the world and how they have been shaped by your adventures. Even the number of endings (eleven at last count) sets Chrono Trigger apart from other titles!

Magus and Frog

The various endings have major, distinct differences that set them apart, but there may be small details within each that change according to specific actions taken during the game. For example, the

first time you meet Magus, you have no choice but to fight him. The second time you encounter him, you have a choice whether or not to do battle. If you fight and defeat Magus, the spell on Frog will be broken. Then after the final battle with Lavos, depending on which ending you get to, you'll watch as Frog reverts to human form. If you don't fight Magus the second time, he'll join your party. He'll prove to be loyal and brave, but Frog will never regain his humanity.

Take the leader, gentle path and save poor Frog!

THE FIRST TIME THROUGH

If you're playing a regular Chrono Trigger game, there are only three possible endings you can reach the first time through. The rest of the endings come into play once you've completed an entire game and start a New Game+ game (more on that in just a bit). The three basic endings are the ones most players will encounter on their own.

Basic Ending #1

This is the ending that most players will get the first time they play. First of all, you must get Chrono back into your party before you confront Lavos. When you meet Magus for the second time, he'll tell you to see Gaspar at The End of Time. Hop aboard the Epoch time machine for the trip. Just as you get under way, the Black Omen Lavos fortress will rise out of the ocean. Gaspar will give you the Chrono Trigger and instruct you to go to the Keeper's Dome in 2300 A.D. Once there, you'll meet up with the creature known as Belthasar. He'll tell you that you need a Clone of Crono before he can do anything. Now return to 1000 A.D. and go to the Millennial Fair. Find the Tent of Horrors in Leene Square and play the 40 Silver Point Game. If you duplicate the performer's moves exactly, you'll win a Clone of Crono. The Clone will be sent to Crono's room automatically. Go to Crono's House to pick it up, then return to Belthasar in 2300 A.D. He'll now accept a program that will allow you to climb Death Peak, a snowy mountain to the north of the Keeper's Dome. Make your way up the mountain and defeat

the three Lavos Spawns that bar your way. Once on the summit, you'll be able to switch the Clone for Crono just moments before Crono would be destroyed by a magical attack. Crono will then rejoin your party. Now you can complete a number of optional tasks or challenge Lavos to win the game. To see the first basic ending, use the Epoch time machine or the Bucket at The End of Time to reach Lavos. If you're victorious, you'll see various scenes involving Crono and Marie.

Most players will likely see this ending.

Basic Ending #2

The second basic ending shifts the focus of some of the final scenes to Crono's mother. To see this ending, get Chrono back into your party, then go to Lavos by battling through the Black Omen fortress.

The Lovers Ending

This is the easiest ending to get. All you have to do is challenge Lavos and lose! You'll watch helplessly as Lavos single-handedly destroys the entire world. Not a very cheerful way to end the game!

You can see this ending without even trying!

CHRONO TRIGGER "+"

Players usually have the option to start a new game or choose one of their saved game files, but if you complete a game by going through the Black Ocean to reach Lavos, a New Game "+" option will appear. This "+" game will be the same as a normal game in most respects, but your characters will start at the same power levels they were at at the end of your previous game. You'll also be able to reach a number of different endings you aren't able to see in a normal game!

The Lavos Gate

The key to seeing the various endings is the Lavos Gate. In the "+" game, the right telepod of Lucca's invention will transport you straight to Lavos at any point during your adventure. Watch the right telepod for a sparkle. Stand on the sparkle and press the A Button to activate the gate. Depending on when you go to Lavos, you'll see different endings. The trick is, of course, knowing when to go.

The Lavos Gate will help you make quick work of things!

Programmer's Ending

This ending takes you on a tour to visit the Chrono Trigger programmers. All you need to do is go through the Lavos Gate right at the beginning of a "+" game.

The Nu Ending

Known in some circles as the "Weak Ending," this sequence shows Nu (a purple fellow you encounter during your adventure) chasing a frog. You get this ending by Defeating Lavos at the Ocean Palace in 12000 B.C., or by going through the Lavos Gate after you come out of the Heckran Cave.

This scene doesn't seem to have much to do with the main plot of the game.

The Frog Ending

In this ending, everyone you meet looks like a frog! To reach this ending, go through the Lavos Gate right after you return from your first trip to 600 A.D. Are the people disguised as frogs or have they really become amphibians? You'll just have to play through the game and see for yourself!

What's really behind all of this frog business?

The Frog vs. Magus Ending

You knew it had to happen sometime! Being charged into a slimy pond skipper couldn't have been a good thing for Frog's ego, and he finally has a chance to take out his frustrations on his

nemesis, Magus. Go through the Lavos Gate after you obtain the Masumune and accept Frog into your party. You'll start off in Lucca's house, then you'll see Frog take on Magus in a knock-down-drag-out bout. Who can blame him?

This one is bigger than any heavy weight fight you've ever seen!

The Reptile Ending

This ending is really another beginning, so to speak. If you go through the Lavos Gate after getting Ayla back into your party, you'll jump back to the beginning of the game. The game will start as usual, except everyone will be a reptile! What happened here?

Holy Jurassic Period, Crease! Look at all the reptiles!

The Magus vs. Lavos Ending

It's hard to understand Magus's motivations. First he's a bad guy, then he has a change of heart and joins you on your quest to destroy Lavos. You can give Magus an early

chance to prove himself by going through the Lavos Gate after your first battle with him (the save file text will read, "The Magic Kingdom"). You'll see Magus take on Lavos all by himself!

We may never fully understand what drives Magus, but he puts up a good fight against Lavos.

Once More Unto The Breach

We won't tell you exactly how to get to the last two endings, but we will give you a few big clues. You must play through most of the "+" game to see these endings, and they have much to do with whether or not two major characters are in your party when you confront Lavos for the last time. For one of the endings, you may also want to try using the Epoch time machine instead of the Lavos Gate. Most of the endings concentrate on just one or two characters, but the last two have a lot more scenes, and more of the cast have a chance in the spotlight. There's some joy, some excitement and some sadness, and you really find yourself feeling for the characters. This just goes to show the time and care the developers put into creating this fantastic game!

You may need to raise your levels to understand the advanced text books.

UNIRACERS

FROM AGENT #677 Credits Code

Those little unicycles in Uniracers are anything but pushovers, and it can take quite a long time to get through the tougher tracks in the latter part of the game. If you'd like to jump ahead to the final screens, just wait for the title screen (the one with the one- or two-player options on it) to appear, then hold Down, L and R, and then press B. The screen will immediately dissolve, and then you'll see your champion unicycle gracing the front page of the local paper!

Hold Down, L and R, then press B on the title screen.

Press B! Now your unicyclo can proudly ride off into the sunset.

ROBOTREK™

FROM AGENT #493 Secret Library

The key to learning how to build better robots in Robotrek is reading the Inventor's Friend books that you find scattered throughout the game. Our intergalactic liaison, Agent #493, has uncovered a hidden library on the planet Kirara. Before you take the Spaceship to the planet Choco, search the area about five spaces right and seven to nine spaces up from Quinteria. You'll find the complete Inventor's Friend collection, including the volumes on how to make Laser 3, Blade 4 and the Solar Pack!

STAR TREK® STARFLEET ACADEMY™

■ FROM AGENT #171 Kobayashi Maru Code

As die-hard Trekkers know, Captain James T. Kirk was the only Starfleet cadet in history to ever beat the "no-win" Kobayashi Maru test at Star Fleet Academy. Now you can duplicate his legendary success! In Volume 74, we told you how to start a new game as one of the classic Star Trek characters, but any password you received would continue the game with one of the standard cadets. To continue a game as a special character, enter your password, but don't start yet. Press and hold I, R, and Select, then press A, B, A, B, X, Y, X and Y. Release all buttons and press Select to start. If you reach the final exam as Kirk, you'll be able to hail the attacking Klingon vessels and save the Kobayashi Maru!

To start a new game as a classic character, hold I, R, and Select on the Cadet Registration screen.

Now press A, B, A, B, X, Y, X and Y. Choose a character, then press Select to start the game.

Repeat the code on the Password screen to continue your game.

You can now beat the "no-win" scenario! What will Starfleet think?

■ FROM AGENT #062 Color Change

Here's a simple trick that allows you to choose your Bomberman's color scheme when you play the Battle Game. On the Player Select screen, each player can scroll through several choices by pressing Select. You can change the color schemes for Players Three and Four only if you have a multi-player adapter.

■ FROM AGENT #958 End Cinema Scenes

FROM THE TREEHOUSE

Exclusive Psycho Combos!!

Just when you thought you had Killer Instinct all figured out, those unruly folks in the Nintendo Treehouse discover incredible new combos! These babies are nearly unbreakable, and Nintendo Power has the exclusive!

Slappies

Slap combos (referred to as "Slappies" in the Treehouse) do not use auto doubles within the first three hits. Instead of openers and auto doubles, Slappies begin with a string of single punches, kicks and special moves executed at very high speeds. If you attack fast enough, the computer will be "fooled" into registering a combo. For example, one Slap combo for B. Orchid starts off with an Ichi (Ni-San), Fierce Punch and another Ichi (Ni-San) for three hits. This sequence can stand on its own as a Triple combo, or you can add more quick "slaps." Slappies are incredibly fast and nearly impossible to break. They will also work with most any ender. Even with an ender, a Slappy will still be too fast to break in most cases, and you'll get extra hits and bonus points. You can add on auto doubles and linkers, but you'll be more vulnerable to combo breakers. All of the KI combatants can do Slappies, and it's just a matter of

If the combo calls for a charge move, start charging early.

Just as, these combos are blind ngy test!

finding non-auto double attacks that can be strung together fast enough. There's no single pattern that will always produce a Slappy, but we've listed a few for you to try out. You'll note that some Slappies have only two attacks before the ender, but with the ender, you'll be credited with a Triple or Super combo.

B. Orchid

Medium Ichi (Ni-San), FP, Medium Ichi (Ni-San), ender (recommend Fierce Lasaken)

Jump-in FK, MK, ender

TJ. Combo

Powerline, FK, Reverse Spinfist, ender

(P) FP, Jump-in FK, MK, Reverse Spinfist, (R) FP, FP

Chief Thunder

Jump-in FK, Toward + FP, Quick Sammamish, ender

Jago

Laser Blade, MP, MP, ender

Jump-in FK, FP, Laser Blade, ender

Cinder

Jump-in FK, MK, Reverse Heatfist, ender

Heatfist, FK, Medium Fireflash, juggle

Slo-Mos

While all of the fighters can use Slappies, only a few can perform Slo-Mo combos, which slow them down dramatically during the ender. To see if your character can perform a Slo-Mo, find a combo with an auto double that will cause a knockdown. Now execute the combo and add an ender a split-second after the auto double. The key here is speed, and press/release enders work the best. In some rare cases, you'll get a slow motion effect. There's no way to predict which combos will work, but here are a few that do. Because speed is so crucial, any charge moves should be started early.

Fulgore

Fierce Cyberdash, Eyclaser, QP, Press/Release Plasmাপort

Gladius

FK, Medium Cold Shoulder, FP, Press/Release Shockwave

Quick Jump Rake, QK, Fierce Tailflip, ender (recommend Flaming Venom)

Fierce Cold Shoulder, Ice Lance, ender (recommend Fierce Liquidize)

Spinal

Jump-in MK, FK, Footslide, ender

Sabrewulf

Jump-in FK, FP, Sabrecut, juggle FK, Fierce Sabrespin, ender

Break-Ups

The Break-Up is a technique that allows you to extend some combos that use reverse charge moves. If you execute a reverse charge move and an auto double twice in a row, the second auto double will often score a knockdown, and the combo will end. However, if you do a jump-in Medium Punch and Fierce Kick combo first, then immediately start the reverse charge combo, you may not get a knockdown. You can then add another reverse charge move and an ender. The second combo must be started as soon as the Triple combo message appears. This pattern will work with just a few of the fighters, including Chief Thunder, Sabrewulf and Spinal.

The timing is very tricky, and you've got to be fast!

If you're lucky, you'll be able to extend the combo.

Eyedol and Turbo Mode

We've saved some of the best for last! To enter the KI arena as the awesome Eyedol or to access the turbo mode, use the following codes on the VS. screen. Get to your neutral corners, then come out fighting!

A Fast and Furious Puzzle Pak

Tired of Tetris? Skipped out on an appointment with Dr. Maria?

Maybe what you need is a fresh approach to the whole "match and zap" puzzle theme, which is what you'll find in

Viocom New Media's *Zaap*. Besides having a unique four-way playing field, this innovative puzzler features interesting power-ups and game play that accelerates very quickly, even at the lower difficulty settings. Die-hard puzzle fans are sure to find lots of challenge here!

ONE PUZZLE, TWO PUZZLE!

The aim of the game is to shoot the advancing pieces before they reach the center square. You'd better believe that this is tougher than it sounds!

Continual Play

Shooting pieces sounds easy enough, but the twist is that your blaster must be the same color as the piece you're eliminating. If your blaster is a different color, it will swap colors with the piece, and the piece will remain in play! You must eliminate a certain number of pieces to advance to the next level, and in Continual Play, any remaining pieces are carried over.

Different lines advance at different speeds, and if just one piece enters the center square, the game is over (the chance is all you get!)

Level Play

In Level Play, the grid will clear every level. You still have to deal with the changing background, though, which is more of a factor than you might think. The designers found that different patterns can draw your eyes in different directions, taking your attention away from certain areas of the screen. Before you know it, blammo! A bunch of pieces sneaks up on you!

CONTINUAL SCORES			
0027000	0040	0:01:20	00
0026000	0070	0:01:20	00
0021700	0016	0:01:12	00
0010000	0070	0:01:20	00
0007100	0040	0:01:05	00

Both play modes allow you to start anywhere from Level One to Level Nine. If a certain level is giving you grief, you can begin there.

There are four types of power-ups, and you shoot them to pick them up. They appear at random around the grid, and each power-up icon is good for one use.

Proximity Bomb

The Proximity Bomb wipes out the piece you shoot at and all of the pieces that are next to it. This includes pieces that are horizontally, vertically and diagonally across from the one that you shoot.

Line Bomb

True to its name, the Line Bomb obliterates an entire line of pieces, no matter what mix of colors it has in it. When you use any of the power-ups, your blaster will take on the color of the piece you shoot at.

Color Bomb

The Color Bomb eliminates all the pieces in a single area that are the same color as the piece you hit. If the middle part of a line is destroyed, the gap won't close, and any pieces close to the center will still be a threat.

Bonus Spring

Collecting five Bonus Springs will eliminate all the pieces on the playing field. The effect is immediate, so you can't rack up extra bonus points by waiting for more pieces to appear, then using the springs.

POWER-UP

Zoopin' And Zoomin'!

Because of the random nature of the game, you'll need several strategies. First, alternate between lines with the same two pieces. Second, keep the rows as orderly as possible. Use single pieces to change your color, rather than a piece at the head of a mixed line, and look for lines that only need a change or two to make them a single color. Third, don't wipe out a power-up with another power-up.

Use your power-ups on sections that would otherwise be tough to destroy, not necessarily the ones with the most pieces. Above all, don't panic!

Scuttle the Smokers In Ocean of America's full-throttle new game!

WATER WORLD

TM

It's a battle to save humanity! In the future, a shift in the polar axis floods the earth and divides survivors into two groups. The simple, peaceful Atollers, who live in floating cities while searching for dry land, are helpless against the onslaughts of the evil Smokers. Only you can save them!

**HIGH ACTION
ON THE
HIGH SEAS**

Each round of Ocean's new shoot-'em-up thrusts you into the midst of battle, as you're ambushed by a squad of crazed Smokers trying to finish off a half-wrecked Atoll Rocketing over the ocean in wave riders, the Smokers will try to scoop Atollers out of the water and whisk them back to their diabolical leader, the Deacon. They haven't counted on running into flak

As many as nine can play in alternating mode. Each player starts with three lives but loses one by being hit by a Smoker.

from you and your Trimaran, though! The most interesting variation on this standard shooter is the 360-degree action. Smokers can attack you from any angle, including behind! Thanks to Virtual Boy's amazing depth-of-field, the bad guys rush up with blinding speed. Spin fast and shoot faster if you want to beat them!

BAD GUYS GO BLUE-BLUE

Douse the Smokers with cannon fire until there are none left. Be warned, though, these aquatic adversaries can skip out of your sight, only to reappear from the opposite direction. Should the Smokers grab all the Atollers, you'll have to fight off a posse of PT boats!

A Smoker starts blinking when he picks up an Atoller. If he successfully spits away his captive, a skull and crossbones will appear.

You get 100 points for each Atoller saved. The blinking Atoller is Enola, who has a precious map leading to dry land. Get to the other back. Save her and your Atoller bonus will increase from two to eight times.

NO SMOKERS ALLOWED

With each successive round, the Deacon unleashes waves of ever-deadlier adversaries. To make matters worse, ravenous sharks prowl for helpless Atollers. It will take a cool hand on the tiller and the trigger to stay alive and defeat all the enemies. Are you up to the task?

THE BROAD SIDE OF A BARBARIAN

It's a lot easier to hit the Smokers from the side than it is when they're charging head-on or running away from you. Try waiting just outside an Atoller and blasting the Smokers as they rush in to grab the Atollers.

READY, AIM, SMOKE'EM!

You can squeeze off as many as four shots at once. Use them all to zero in on the Smokers. Unfortunately, some of the Deacon's wilyer benchmarkers will anticipate your shots and take evasive action. Your best tactic is to drift and fire at clumps of them. Always keep an eye out for the lone kamikaze attacking you from the rear!

STAND AND DEFEND

It's sink or swim time when there's just one Atoller left in the water. Stay close to the survivor and wait for the bad guys to come to you. Spen frequently to make sure no Smoker is sneaking up from behind. You can also tap the Down button to get a quick aerial view of the action.

Swing batta, batta! Take a crack at Virtual League Baseball!

The World Series has come and gone, but there's always room on a baseball fan's schedule for a little more of America's favorite pastime.

Kemco is stepping up to the plate with Virtual League Baseball, the newest game on the growing lineup of titles for the Virtual Boy.

VIRTUAL LEAGUE Baseball

Head out onto the virtual diamond for some world-class competition!

Baseball is a video game staple, so it's no surprise that Virtual League Baseball takes its cues from past titles, using a behind-the-batter perspective and allowing for single game, All-Star game and Pennant Race play with teams and leagues from around the world. There aren't as many game play options as you might expect, but you can use designated hitters, which is a rarity. Though Kemco could've taken better advantage of the Virtual Boy's 3-D capabilities, the game succeeds with a few special effects.

Here's the one-two pitch!

Most baseball fans will want to know first how the offensive game stacks up. Pitch control is good, and a power meter allows you to set the strength of a throw. Hitting the "sweet spot" on the meter produces a fast ball, while going past that mark produces a slower pitch and tires your pitcher much faster. Batting is straightforward, but since you don't really see where a ball connects on the bat, correcting your swing involves some guesswork. A bit of practice, though, should help you bring your averages up to snuff.

Despite some sense of depth, the straight-on view some fans makes it difficult to see when the ball is in the strike zone.

Play ball!

In the Vs. mode, aspiring big leaguers can select their teams and their opponents from among eighteen ball clubs in the Pan-Am, Asian and European Leagues. The All-Star mode combines the best of the leagues into three teams, and the Pennant Race mode sets your chosen national team on the road to the World Championship, with passwords given out along the way. Of course, this is strictly a one-player experience, but your computerized opponents offer good levels of challenge and show a lot of variety in play.

A spectacular diving catch!

As soon as a batter makes a hit, the screen switches to a wide-angle, overhead view for fielding. Part of the view is taken up by graphics of the surrounding stands, so the field and the players are rather small. This sometimes makes it seem as if the fielders are running too slowly. The fielders move as one unit, and you'd best be careful which one you choose to go after a ball. On the flip side, the speed of their throws seems right, and you can soon get a feel for the scale of the field.

All Stars

As mentioned before, the players show a lot of variety, displaying skills in keeping with their stats. The following charts list some of the top players on each team, which should help you pick the team that's right for you.

JUDGE DREDD

HOW DO I ENTER THE EXIT DOOR?

Ken Barjor

Each area in Judge Dredd has an Exit Door, but you can't go through one until you complete the primary objective for the mission. A small red message in the upper left corner of the screen flashes "Primary Objective Complete" after you finish each mission. You can enter an Exit door if this message is flashing. The sign above the door also rises and falls. Behind the Exit Door awaits your next assignment.

You can't enter the Exit door until you have met the Primary Objective of your mission.

After completing the Primary Objective, the Exit Door will begin to flash on and off.

HOW DO I DEFEAT RICO?

Rico is Judge Dredd's evil twin. The first step to beating him is to make him activate his Anti-Grav belt. Hit him with five Incendiary Missiles to get him airborne, then move to the bottom of the screen and start fir-

ing Heat Seekers or Double Whammies. These weapons work best since they home in their targets. If you're not carrying this ordinance, don't worry about it—any other weapon will also slow him down. When Rico is hit, he

drops a special weapon canister. This is the only device that can defeat him. It takes roughly ten hits with the weapon to destroy Rico. Collect at least fifteen special weapons before you open up and send your evil twin packing.

The first step to defeating Rico is to get him airborne—but beware, there's nowhere to hide!

Rico drops a special weapon canister each time he is hit by one of your shots.

The special weapons are the only items that can effectively restrain your evil twin.

TECMO SECRET OF THE STARS

HOW DO I ESCAPE THE MIRAGE?

Deon O'Connor

The mirage near the town of Lagoon is tricky, but there's an easy escape route. Note that the game music changes when you enter the mirage. Starting from the town, move right one step and down one step and keep repeating this pattern until you reach the town of Lagoon again. When you re-enter the town the music changes back to normal and the mirage vanishes.

Stuck in a mirage? Keep moving right and down until you reach the town again.

When you re-enter Lagoon, the music changes back to normal. Now you can continue on your quest.

WHERE IS BADBAD LOCATED?

BadBad has transformed the inhabitants of Beegees into a pack of raving cannies. The only way to change the citizens back to normal is to

defeat Bad Bad. BadBad lives in a log cabin on a nearby mountain. Enter the cave south of Beegees and work your way through the caverns. You must use magic to

defeat the ghosts in the cave—you'll miss if you use your weapons. When you enter the cabin, climb upstairs and follow the path to the evil BadBad.

Go south of Beegees to the mountain-side cavern. This cave leads to BadBad's cabin.

The ghosts in the cavern cannot be defeated unless you use magic attack spells.

If you're low on hit points, sleep in the bed in BadBad's Cabin to regain your energy.

HOW DO I GET LEONA TO JOIN?

After getting Cody to join your party, return to the poor section of Decatus and enter the middle house. This door was locked until you rescued Cody. You're just in time to see Leona get abducted. Go to the Armor Shop and walk right until

you reach the water. Walk down along the shoreline and then right three steps. Press the A Button to talk to the hidden shopkeeper. Purchase the Time Bomb at the hidden shop and walk up along the green path on the right side of the poor section of Decatus. Stand in

front of the indentation in the wall and use the Time Bomb. Now you can enter the exclusive rich section of Decatus and go to the house behind the Weapon Shop. Take a rest and restore your party's energy. The next morning, Leona will join you in your quest.

You see Leona for the first time when you enter the house in the poor sector of Decatus.

Find the hidden shop and purchase the Time Bomb. You must have Cody in your party.

Use the Time Bomb on a small section of wall outside the wealthy sector of Decatus.

SUPER PUNCH-OUT!!

HOW DO I REACH THE SPECIAL CIRCUIT?

To pound it out in the Special Circuit, you must be undefeated in the Minor, Major and World Circuits. This means your fighter must have a record of four wins and no losses in all three circuits. If you did this and you still can't get to the Special Circuit, erase the data in every file and try again. Unlicensed game products destroy your chance to fight, even after you disconnect the device.

The Special Circuit is peopled with the hottest heavyweights in Super Punch-Out!

You must have a perfect record in the Minor, Major and World Circuits to reach the top.

HOW DO I DEFEAT BALD-BULL?

Bald Bull, the Turkish Terror and Minor Circuit champ, packs plenty of power in his punch. The key to defeating the heavyweight is to counter his attacks

with perfect timing. Soften Baldy up with body blows and wait for his charge attacks. Bald Bull has a three-hop and a two-hop attack. You can stop him if you counter with a Left

Body Blow on the last hop. Watch Bull when he backs up to the rope—did he hop backward three times or just two? Now you know how much room he has to charge forward.

Time things just right, and you can knock this charging Turkish hero to the floor.

Counter Bull with a perfectly timed Left Body Blow on the last hop of his charge.

The trick to taming Bull is to count how far he hops backward before he charges.

HOW DO I DEFEAT THE MASKED MUSCLE?

It's no secret that the Masked Muscle doesn't fight fair. Given the opportunity, he'll spit in your eyes and temporarily blind you, then charge with a brutal head butt. Overcome these dirty tricks by dodging Muscle's

tactics, but when you do, hesitate a brief moment before you hit the Dodge button. For example, when you see the message telling the Masked Muscle to spit in your eye, wait until he moves his head back and puckers up before hold-

ing the Dodge button, then come out punching. The dodge method also works on the Head-Butt attack. Wait until the Masked Muscle lifts his leg before dodging left or right and countering with your own tricky body blow.

Muscle blinds his opponent with spit. If this happens, dodge until the effect wears off.

Beat the Masked Muscle by waiting until the last moment to hit the Dodge button.

Use the hesitation technique on the Masked Muscles charging Head-Butt attacks.

HOW DO I SAVE MY GAME?

You can save your game by spelling out "KONG" when you complete a level. You must collect the K, O, N and G letters in one stage, not several stages. Fans of Donkey Kong Country for the Super NES might remember that spelling out "KONG" in that game gave them an extra life. Most DKL players return to earlier, easier stages to find all the letters and save their game.

In each level are the letters K, O, N, and G. Spell "KONG" to save your progress.

Having difficulty in the advanced stages? Return to an easy level and collect the letters.

HOW CAN I GET EXTRA LIVES?

You pick up an extra life each time you collect 100 bananas or a 1-up balloon. One method to adding extra lives is to revisit Level 1-2 repeatedly. As you start the stage, run right and

jump for the 1-up balloon. Enter the bonus stage and collect two more balloons, leave the bonus area, pause the game and press the Select Button to exit the level. Re-enter Level 1-2 and repeat the process.

You can quickly pick up three lives each time you repeat the level. Although the game stops displaying your heart totals when you exceed twenty lives, you can keep adding extra credits. Good luck!

Diddy be nimble, Diddy be quick! Run and jump to nab this 1-up balloon in Level 1-2.

Enter the Bonus area, pick up two more lives, then pause the game and exit Level 1-2.

The life meter goes up to only twenty hearts, but you can keep adding credits.

KILLER INSTINCT™

PORTABLE PUNISHMENT!

For those who can't get enough of the best fighting game of all time, here's something really tasty for you: the Game Boy version of Killer Instinct! Now you can get your KI action "on go," taking the best features of the arcade and 16-bit mega-hits along with you. Riptor and Cinder don't make an appearance, but most of the special moves, combos, arenas and even simplified versions of the original soundtrack are here. There's even a Practice Mode that lets you perfect your fighting technique without getting whacked in return!

AWESOME EIGHT

**KILLER
INSTINCT**

The carnage continues as eight of the original ten fighters take the KI tournament on the road. Many of their signature moves have been retained, and the crowd sequences have been simplified for the Game Boy version. Launch a Quick Punch or Quick Kick with a tap on the A or B Button, and perform a Fierce Punch or Fierce Kick by pressing and holding the appropriate button. There are no Medium blows.

The mysterious Jago continues his quest for knowledge in a harsh world.

Life holds some anger for Spinel, save for the clash of battle.

He could've been a contender, but who knows what will happen now?

Sabrewulf wanders if the human within him will ever be free.

This icy alien hasn't given up his dream of someday returning home.

Fulgore returns for more battle field toying, and he's even more deadly!

Thunder is determined to find his missing brother, Eagle.

How much longer can Orchid conceal her true identity and purpose?

COMBOS

Like its predecessors, KI for the Game Boy has a multitude of combos just waiting to be discovered. They are executed in the same way that combos are performed in the arcade and Super NES versions of the game, with openers, auto-doubles, linkers and enders. Yes, there are even 21-hit Ultra Combos, if you're clever enough to figure

BIG TIME ACTION

The play control for this game is superb, and since there are only four basic punch and kick commands, executing combos is sometimes much simpler than in the Super NES version. The new control arrangement is easy to get used to, and it won't be long before you're taking down anyone foolish enough to challenge you in the Game Boy KI arena.

JAGO

Jago is still one of the fastest combatants in the KI arena. The Laser Blade is certainly swift, but with his speed, basic kicks (even Fierce Kicks) are sometimes more useful than the special moves. The Endokuken fireball has pretty good speed, but its greatest advantage is its size, which makes it hard to dodge.

The Wind Kick will carry you across the length of the screen, an especially quick move at this scale.

T.J. COMBO

Even though his Fierce Kick is really a second Fierce Punch, Combo has a lot of variety, and you can fake-out your opponent by switching from a Powerline to a Rollercoaster in the middle of your run! Other moves include the Runstop, Knee K.O., Turn Punch and Cyclone.

A Quick Punch jump-in attack followed by a Quick Kick auto-double should give you a four-hit Super Combo Punch, jab, jab, body blow!

SPINAL

Most of Spinal's bag of fighting tricks has been carried over to the Game Boy version of the game, including the Searing Skull and the infamous Skelepoet. The ever-popular Footslide is here, too, ready to knock your opponent for a loop when all other attacks fail!

You still need to use the Power Device, to absorb any projectiles hurled at you, before you can throw a Searing Skull at your opponent.

SABRE WOLF

Killer Instinct's resident werewolf returns at his slap-happy best, ripping out his trademark Sabrespin, Sabrecut, Flaming Bat and more. He's as fast as he ever was, and you can even cut loose with a Howl to supercharge some of his special moves!

Even if you fail to start a combo with the Sabrespin, you're still in a good defensive position.

GLACIUS

Glacius doesn't have as many special moves as some of the other warriors, but when combined, they are particularly devastating. You can use the Liquidize maneuver to strike in front of or behind your opponent, while the Ice Lance is handy for fending off most any mid-level or airborne attack. The Shockwave is powerful, but it leaves you vulnerable.

Once you launch a Shockwave, you won't be able to move again until after it hits the target.

FULGORE

Having no less than eight special moves programmed into his Game Boy form, Fulgore is one of the best equipped K1 combatants. You can throw from one to three Laser Storm bolts, Plasmaport your way around your opponent, Reflect projectiles off your body and Cyberdash across the screen—and that's just the beginning!

Fulgore's Laser Storm bolts are possibly the fastest projectiles in the game.

CHIEF THUNDER

Our favorite Chief Thunder blasts the competition with the Triplex, Phoenix and his signature Sammamish attack. In addition, there is a mid-air Tomahawk attack that will send you hurtling down towards your hapless opponent, your twin axes blazing with energy!

The slashing Sammamish is a popular move with players and pros alike.

KILLER INSTINCT

B. ORCHID

With moves like the Lasaken, Ichi Ni-Son, Flik Flik, Five Cat to name just a few, special operative B. Orchid could give a certain British secret agent a run for his money!

It's hard to see the difference between the regular and low Five Cat attacks, so the element of surprise is on your side!

THE DUNE SEA

In The Empire Strikes Back, Darth Vader captured Han Solo and froze him in carbonite. Rumor now has it that the gangster Jabba the Hutt is holding Han captive on the planet Tatooine. You'll have to make your way across the deadly Dune Sea to Jabba's hideout, battling sandworms and scavenging Jawas on your way. On the way, you'll have to master the superjump. It's the only way you'll be able to grab the outcroppings suspended in air.

FIVE FOR FREEDOM

**SUPER RETURN
OF THE JEDI**

An unlikely group of heroes joins forces to fight the evil Empire. Despite personal differences, all love freedom and have dedicated their lives to battling for it. They are roused to action by reports that the

Empire is building a new Death Star, bigger and deadlier than the first. Each hero has a unique fighting style and weapon. You'll have to master them all if you, too, want to defeat the Empire!

LUKE

The one true farm boy seeks the truth about his mysterious past while spearheading the rebel attack on the new Death Star. His favorite weapon is a Jedi lightsaber that he built himself.

LEIA ORGANA

While seeking Han Solo, Leia disguises herself as the bounty hunter Boushka and wields a staff. When fighting as herself, though, she prefers an Alliance-issue blaster pistol.

HAN SOLO

This one-time smuggler stuck his head out for no one until he friends in the Alliance pleaded for his help in battling the Empire. He prefers to fight with a modified Corellian blaster pistol.

CHEWIE

Gentle with friends but ferocious in battle, Chewbacca wields a high-powered crossbow laser rifle. He is a sworn enemy of the Empire, which once forced him and other Wookiees into bondage.

WICKET

The small stature of this young Ewok belies his huge heart! A native of the forested moon of Endor, Wicket battles the high-tech Imperial forces with a low-tech bow and arrow.

POWER-UPS

You'll need all the help you can find if you want to defeat the Empire.

HEART
Replenish your Health! Special by snagging big and small hearts.

HERO ICON
Gain an extra life by grabbing an icon of your current hero.

THERMAL DETONATOR
This potent power-up will damage every nearby enemy.

WEAPON POWER-UP
Grab this and your hero's weapon will wreak more damage.

R2-D2
Mark a combination point by touching this astromech.

DIAMOND
Create a temporary shield around your hero.

JABBA'S GATE

Jabba has booby-trapped the gate to his hideout with giant balls that spring from the walls and ceiling. Keep superjumping. When you're resting, say, out of range of the balls.

DANCE HALL

You're definitely not welcome at Tatooine's most dangerous night club. Crushing hydraulic plates, Gamorrean guards and trap doors are just a few of the hazards to your health. If you make it through to free Han from his carbonate prison, the enraged Jabba will dump Luke into the dark dungeon of a gigantic rancor beast. Fortunately, Luke's lightsaber can deflect the monster's missiles.

Skip quickly to grab the heart before the trap doors open wide.

Attack aggressively with the lightsaber when the beast pauses.

SAIL BARGE

Infuriated by the loss of his beloved rancor beast, Jabba hauls the heroes over the Dune Sea in order to throw them into the Sarlac's pit! Don't worry about battling Jabba's bounty hunters or the giant spiders. You'll have your hands full running and jumping as fast as you can past the rolling barrels and automated cannon-fire. Don't jump to your right off the balconies or the Sarlac will have you for lunch.

Exit the first set of anti-gravity lifts to the balcony on your right. Jump off the balcony and fall to your left to grab a 1-up.

Expect to take hits from the barrels rolling down the stairs.

Grab this heart and weapon power-up at the end of the first floor. On the top deck, break through the floor to grab another heart. You'll need it when you fight Jabba!

ENDOR BIKER

Imperial forces have shattered the rustic calm of Endor by building a shield generator that protects the new Death Star from starfighter attacks.

Arriving on Endor to destroy the generator, Luke, Leia, Han and Chewie are spotted by Imperial biker scouts. Luke or Leia must commandeer a speeder bike and stop the fast-moving scouts before they can report the rebels' location.

Sideswipe the scouts and grab hearts, but don't run into a tree!

EWOK VILLAGE

The Empire got a lot more than it bargained for when it built the shield generator on Endor. Angered by the Empire's high-handed action, the Ewoks join the rebels and fight ferociously against the bigger, better-equipped Imperial troopers. Armed only with a handmade bow and arrow, young Wicket clambers through the treetop Ewok village in search of the generator. He'll have to move fast to avoid the fatal flora and fauna, which include giant lizards and insects, as well as tree-trekking troopers. Fortunately, many enemies give up extra-energy hearts when defeated. At the top of the first tower, Wicket will find an extra life.

Why little Wicket moves more quickly than the Imperial troopers and fewer drods, but he'll have to take careful aim with his bow. His experience as a hunter will come in handy.

SHIELD GENERATOR

Han and Chewie sneak into the shield generator, but instead of a quick victory, they run into a clever trap laid for them by the Emperor! Imperial troopers, proximity grenade launchers and defense drones are all gunning for the rebels, who will have to find their way through a maze of tunnels and shafts. Deep inside the generator, they'll be able to find and destroy the power conduit.

Han and Chewie will have to look before they leap onto the moving platform, because if they miss it's a long way down!

THE DEATH STAR

Sensing the good that is still in his father, Darth Vader, Luke returns to the Death Star. His intuition proves right but he must now defeat the Emperor Palpatine and his guards in order to escape the Death Star. Meanwhile, the destruction of the shield generator has made the Death Star suddenly vulnerable. Aboard the Millennium Falcon, Lando Calrissian and Nien Nunb seize their chance and hurtle toward the Death Star's power core. They must destroy the core to defeat the Empire!

Luke will have to move quickly if he wants to stay ahead of the swarming guards!

Putting his trust in the Force to look after him, Luke will often have to leap into empty space.

Pursued by Imperial TIE fighters and blasted by laser cannons, Lando must let his intuition guide him to the power core.

Super GAME BOY

DEFEND! DEFEND!

Defender's premise may be simple, but this classic side-scroller is tough! You fly around a planet defending life pods from slow-moving invaders. The invaders try to pull the pods into outer space, and you can't let that happen. If they reach the top of the screen, invaders merge with the stolen pods and morph into super-charged, kamikaze menaces that ram into your ship. To save your pods, your ship and your game, shoot the invaders before they reach the top of the screen, then rescue captured pods. Save your smart bombs until you really need them. The play is true to

the arcade, but it has tricks not found in the original. The chaos of the coin-op version has been captured, and on Super Game Boy you can change the colors.

Long before he created *Cruis'n USA*, game creator Eugene Jarvis wanted arcade freaks and cool video gamers to be extreme with *Defender*. Back then, 15 years ago, you played *Space Invaders* to be cool; you played *Defender* to experience a meltdown. With pods to protect and super invaders to dodge, players found it a tough game to master. Now that Nintendo has brought *Defender* home for Super Game Boy, you, too, can experience the run 'n' gun mayhem of this arcade classic. But be warned: it's no game for wimps.

© 1995, 1999 Williams Electronics Games Inc.

FRIENDLY FIRE!

Don't let anything happen to your pods, it's your job to guard them. Take care not to shoot them when attacking invaders, and catch them and help them land safely once you retrieve them from invaders. The game takes a scary twist if all your pods are destroyed. You'll be taken into outer space where the aliens are fast and merciless.

JOUST PROVES IT: CHIVALRY IS DEAD

Joust is about more than just knocking your opponents off their flying ostriches. It's also about stomping on their eggs so that they don't come back. The goal of the game is simple to understand: Outmaneuver enemy knights and hit them with your lance. To win each battle, you have to fly a little higher than the other guy. When knights collide, the one on top wins. Unfortunately, ostriches were not made to fly, especially with knights in armor on their backs, so they must flap very hard and they tend to tire easily. You may move in to attack another knight only to find your bird sinking quickly. Don't

fly in low or your opponent will stick it to you. With each level, the game gets harder. Some of the stone ledges disappear, meaning that you're in for a hot lava dip if you can't keep your bird in the air.

GOOD POINT

It pays to play fast. If you take too long Decoy, the crowed disease bird, will come out. He's faster than a flying ostrich but not very maneuverable. Flip around in one place when Decoy's on the prowl and he'll send you back to the nest. Don't give up hope if Decoy's got you in his sights, it's hard but you can defeat him. Aim your lance directly at his mouth and he'll get the pest.

Ignored
knights on flying ostriches chasing each other over pools of lava? This could only be Joust, the imaginative game that had video arcade quers all aflap. What made this game so good?

It might have been the bright graphics. Maybe it was the fast action, with jousting knights flying in every direction. Or maybe it was the gravity-bound birds struggling to fly. Whatever the attraction, Joust was one of the biggest quarter munchers of its time.

How many Gold Medals can you get?

- RICH SAUTHER8 MEDALS

Rich's name was omitted in Volume 75, but we wanted to give credit where credit is due. Great job, Rich!

Check it out...impressive! photography. Notice how the brush strokes contrast with the unique lighting...what? It's upside-down!

Kyle Rex of Wakeegan, IL sent in a awesome shot. While it didn't make the contest deadline, it was too good to circular file.

Before you can enter one of the challenges, you must first capture your score on film. As many of you know, this can be tricky. If you are taking a photo of a Super NES, first move your system near your television so you can get a photo of both the system and high score at the same time. Dim the lights in the

room a little bit, then take a few photos without a flash. When you are taking a photo of a Game Boy, place it on a flat surface and take the photo using natural light (NO FLASH!). If you are using a game enhancement device to get your entry score, get a life, quit cheating, and try again without one.

Your power Guide To The Latest Releases

NOVEMBER 1995

PLAYING

BIG SKY TROOPER

Company.....JVC
Release Date.....November 1995
Memory Size.....8 Megabits

Slugs in space? JVC boldly goes where no gastropod has gone before.

Don't expect the tantalizing graphics and music of the Super Star Wars series. Big Sky Trooper has the look and feel of a happy, colorful child's toy. The game play, which involves moving

from planet to planet to exterminate an infestation of alien slugs, can best be described as action-oriented with some simple adventure elements. Players interact with ELDO, the ship's computer and various characters on the planets. Items and power-ups found on the surface add to your arsenal. Space combat is restricted to a modified Asteroids-type shooter. This month's Take 2 explores Big Sky Trooper for signs of intelligent life.

- Well done for a young gaming audience. Big friendly characters. Sense of humor.
- Not complex enough for most gamers. Cute graphics won't appeal to many players. Navigation between planets using beacons is unnecessarily awkward.

BOOGERMAN

Company.....Interplay
Release Date.....November 1995
Memory Size.....24 Megabits

It's not easy being green, but Boogerman sticks to the job, not to mention the walls, floors, ceilings, and your finger.

Snotty Ragsdale, a.k.a. Boogerman, plunges into one sticky situation after another in Interplay's Boogerman for the Super NES. The game features platform action in which the big B hops through obstacles, flicking green chunks with wicked accuracy at enemies. If that isn't enough to stop the toxic terrors, Snotty might just resort to belches or flaming farts. It isn't likely that anyone will mistake Boogerman for a Renoir or DaVinci. On the other hand, green is the color of the nineties. This isn't a remake of the Genesis Boogerman from last

year. Interplay created new stages, new graphics and new sounds to take advantage of the superior Super NES hardware. Check out the maps and tips in this month's Power review.

- Fun graphics and gag animations. Good play control.
- No great challenge. Hit detection ranges are small making some jump moves difficult.

DEFENDER/JOUST

Game
BOY

Company.....Nintendo
Release Date.....November 1995
Memory Size.....2 Megabits

Two more arcade classics charge into the lists this month from Nintendo.

The Game Boy series of arcade classics welcomes two of the most distinguished arcade games from the early eighties—Joust and Defender. The small screen versions include Super Game Boy enhancements

for playing on the Super NES, but they look and play like the originals in the black and white format, also. Defender, just about everybody's favorite, puts you in charge of defending planets from invasion. Your fighter zips over the horizon as incoming alien marauders attack. Joust steps into a fantasy world in which knights ride war-ostrichs in battles that range over vertical platforms. Both games get classic coverage in this month's Power.

Good play.

Simple graphics.

EMMITT SMITH FOOTBALL

Super
NES

Company.....JVC
Release Date.....October 1995
Memory Size.....16 Megabits

Custom plays can give Emmitt Smith the gridiron edge.

Emmitt Smith of the Dallas Cowboys knows a lot about running plays, and with his endorsement of this Super NES football simulation from JVC, he can run on every play. JVC adopted a Madden-like interface on the field and in the selection screens. The big difference is that you can create your own plays and save them for use against other players or the computer. It's a great idea, but does it pay off? You'll have to stop by this month's Sports Scene to find out.

Custom play design feature. Battery backed-up memory for saving plays.

Graphics and play controls are top in the football game world. No NFL licenses. No season play.

FIFA '96 SOCCER

Super
NES

Company.....EA Sports
Release Date.....October 1995
Memory Size.....16 Megabits

Get down on your knees and pray to the gods of soccer, 'cause EA Sports has a new FIFA on the pitch.

One of the best sports games has just become a little better. FIFA '96 Soccer moves beyond the standards set by FIFA '95 by creating even greater realism on the field. Once you get into the pace of the matches in FIFA '96, you'll appreciate the A.I. and speed of play. You've got a free ticket to the match of the day in this month's Sports Scene.

Realistic A.I. Lots of options. North American soccer teams included.

The animation frame rate seems slightly low, but the actual on-field speed of players is very realistic.

FOREMAN FOR REAL

Super
NES

Company.....Acclaim
Release Date.....October 1995
Memory Size.....16 Megabits

Big George "Feed me a horse" Foreman fights for honor and fast food endorsements in Acclaim's new Super NES boxing title.

Limited perspectives have always been the bane of video game boxing simulations. The Acclaim solution is to put one fighter in the foreground with his back to you while the other is face-on. If you want, you can switch them front to back every round to make things even. Not a bad idea. The contenders to George's throne come from a fictional world of prize fighters, but the competition is very real and fighters can throw Super Punches and Combos to make a fast comeback even when they're behind. Will George retain his heavyweight championship? You guessed it. Sports Scene has the answer.

Fairly challenging. Good graphics.

Control often slows in the heat of the bout when you need it most. Super Punch and Combo are not used. George is too slow in the two-player mode.

INTERNATIONAL SUPERSTAR SOCCER DELUXE

**SUPER
NES**

Company.....Konami
Release Date.....November 1995
Memory Size.....16 Megabits

Soccer from around the world takes a place in your home.

Konami comes through again with a classy bit of soccer action for the Super NES. ISS Deluxe revisits the large characters and quick play of last year's surprise soccer champ and adds better overall graphics

and a number of options. Fans who like their soccer on an international stage and with a stiff dose of reality need look no further, except possibly to FIFA '96. ISS Deluxe feels and plays like real soccer. It's also a challenge because the computer player won't give you any breaks. If the A.I. is too tough to beat, though, you can bring in three more players and go head-to-head-to-head-to-head in a wild four-way. Don't miss this month's Sports Scene review when International Superstar Soccer Deluxe matches up with FIFA Soccer '96.

Good, though challenging, A.I. Good graphics. Good sound. Radar screen to help passing.

Very tough as IP vs. CPU at all but the easiest levels, regardless of your opponent.

KILLER INSTINCT

**Game
BOY**

Company.....Nintendo
Release Date.....November 1995
Memory Size.....4 Megabits

Down-sized, but still a killer, KI for Game Boy and Super Game Boy makes an awesome combo.

Rare pioneered the use of ACM techniques for Game Boy earlier in the year with Donkey Kong Land. Killer Instinct for Game Boy goes a step further. The reduced color graphics still look 3-D and distinct in portable form, and the animation is amazingly fast with responsive controls. The level of fighting play control is the true wonder of this mini mauler. Nine of the characters are included, but not all of their moves, proving that there are some limits to what can be compressed into a 4 megabit memory chip.

A true Game Boy tournament fighter with excellent play control. Enhanced Super Game Boy sound and color.

Battle cool moves are missing. Not nearly as complex as Super NES or arcade version. Fewer control buttons results in simpler play.

MADDEN '96

**SUPER
NES**

Company.....EA Sports
Release Date.....October 1995
Memory Size.....12 Megabits

Madden is back and packed to the upper deck with pro football fun.

The Madden series continues for the fourth year with Madden '96 from EA Sports. This year's Madden features teams that can be customized through trades of real players or newly made players, but the most radical difference is the Practice Events options under the Front Office selection. Players participate in 14 events and drills to hone their football skills. For all of the changes, and the final standings, look to this month's Sports Scene.

All relevant player and team licenses plus stats from Topps. Some great options. Improved graphics and controls. Soak up the fun for the dedicated football fan. Up to five eligible receivers on the field.

Pass-catching A.I. seems to favor the computer. Some stadiums have worse graphics than others.

MORTAL KOMBAT 3

**SUPER
NES**

Company.....Williams

The tournament continues with new pretenders, rivals and champions trying to unseat Shao Kahn.

With the arrival of MK3, the question arises, are you a fighter or just a sack of guts ready to be split open, frozen, burned, turned into a polar bear, teleported to higher levels or beaten to a bloody pulp? Fighters will rejoice. The game that added Kombat Kode fun to the arcades does the same thing in style on the Super NES.

If you reach Shao Kahn, you'll find out how he really feels about you. And if you read this month's Kode-packed review, you'll find out how to make Kahn eat mortal pie.

Excellent graphics. Kool Kombat Kode feature. New characters very close to the arcade game.

A.I. is VERY hard on Very Hard. Confusion of story plots.

NBA LIVE '96

SUPER NES

CompanyEA Sports
Release DateOctober 1995
Memory Size16 Megabits

The best just got better. The NBA experience comes alive from the front office, to the bench, to the court.

Realistic video basketball defied programmers for years, but EA Sports made a great stab at it last year with the first NBA Live title. This year, NBA Live '96 pushes even further and winds up with the most realistic b-ball experience ever. Improvements to the A.I. and full trading and player creation options give '96 the edge over the competition. Not only is it realistic, it's fun. This month's Sports Scene goes to the hoop.

- ⊕ Improved A.I. Excellent attention. All the options you need to customize play, NBA and player licenses
- ⊖ Some computer players never miss

NHL '96

SUPER NES

CompanyEA Sports
Release DateOctober 1995
Memory Size16 Megabits

On the ice or on the couch, NHL '96 scores a hat trick.

Awesome control, animation and play options score the hat trick for EA Sports' new hockey classic. This year's NHL '96 for the Super NES does everything right. Gone are the days when hockey fans assumed the Genesis version was superior to the Super NES game. It's no longer a contest. Great graphics, sound and play control put this game in a league of its own. The animation and sound are so good that they create the illusion of a televised hockey match. Full options allow players to face-off against each other or the computer, for an exhibition or a full season. For the in-depth scouting report, turn to this month's Sports Scene review.

- ⊕ Best hockey graphics. Team and player licenses. Fighting option
- ⊖ Colorado not in Quebec

SECRET OF EVERMORE

SUPER NES

CompanySquare Soft
Release DateNovember 1995
Memory Size24 Megabits

The biggest adventure since Secret of Mana takes you out of this world and out of your mind.

Square Soft's first American developed game uses the same mechanics as Secret of Mana. The game progresses through four worlds, each based on a particular theme such as the age of dinosaurs, the span of human history, the gothic age, or the future. Players control either the boy or his dog, using weapons, teeth and alchemy formulas to fight the legions of baddies and dungeon guardians. Epic Center explores the vast worlds of Evermore in this issue. If you like Mana or The Legend of Zelda: A Link To The Past, you won't want to miss this awesome epic.

Good graphics, sound and play control. Great story and variety of play. Battery backed-up memory. 50 hours plus game time.

Alchemy battle system can be awkward. Simple A.I.

SPIDER-MAN & VENOM: SEPARATION ANXIETY

SUPER NES

CompanyAcclaim
Release DateNovember 1995
Memory Size24 Megabits

Spider-Man returns in a new web of intrigue and action.

Acclaim's latest Spider-Man may not break much new ground, but it spins a web of action and danger. In these 15 stages, Venom must work with Spider-Man to stop five symbiotes that will otherwise destroy Venom. Software Creation's awesome sound track may be the highlight of the game from a technical perspective, but the developers also used some terrific graphics including rendered 3-D elements that appear in the background. What else is cool? Spidey has his web-shooters and basic fighting moves. Venom has web capacity, as well, plus an extendable fist. If there's a weakness, though, it is in the simplicity of the fighting.

Good graphics and excellent sound track. Two-player cooperative action. Carries from other Marvel characters.

Not much innovation. Simple A.I. No great challenges.

SUPER RETURN OF THE JEDI

**SUPER
NES**

Company.....THQ
Release Date.....October 1995
Memory Size.....4 Megabits

A long time ago, in a Game Boy far, far away...

Luke Skywalker, Princess Leia and Chewbacca must save Han, then destroy the new Death Star in this Game Boy version of the classic Lucasarts title. THQ managed to put most of the elements of the Super NES game into this Pak except for the Mode 7 flying stages. Impressive. The action begins on Tatooine on the way to Jabba's Palace and moves on to the Forest Moon of Endor where Wicket and his furry cronies must hamstring the empire. Players choose to fight through the side-scrolling stages as one of five hero choices. Although an earlier version of the game had no enhanced Super Game Boy features, Super Jedi is now powered up with enhanced borders and sound. Nintendo Power joins the rebellion for an insider look this month.

Good graphics. Lots of action packed into a Game Boy Pak

Loose play control. Not as challenging as the Super NES version

TECMO SUPER BOWL III: FINAL EDITION

**SUPER
NES**

Company.....Tecmo
Release Date.....October 1995
Memory Size.....16 Megabits

Tecmo's best football game ever makes it to the playoffs.

Tecmo Super Bowl III: Final Edition for the Super NES pushes all the right buttons for a rousing football experience. With NFL and player licenses, it has the authenticity of the real game. As for the options, Tecmo excels at giving players as many options as they can handle,

including full seasons with players controlling teams manually or from the sidelines as the coach. Final Edition is easier to play than Madden '96 and looks better. See the full comparison in this month's Sports Scene.

Excellent graphics and play control. A full line-up of options and licenses. Battery backed-up memory. Full seasons. Quick learning curve.

Limited number of plays. Fewer passing/receiving choices on the field than Madden '96.

VIRTUAL LEAGUE BASEBALL

**VIRTUAL
BOY**

Company.....Kemco
Release Date.....October 1995
Memory Size.....8 Megabits

First, baseball had the Major Leagues, then the Little League. Now, there is the Virtual League.

Kemco gets a grand slam off the Virtual Boy with this 3-D, immersive baseball game. The teams may be international, but the action on the brilliant red diamond is All-American. Whether you're eyeing a 90 mile-an-hour fastball or running down a pop fly, Virtual League Baseball presents a realistic baseball experience. This month, Nintendo Power fills out the box score for this 3-D sports game.

Good graphics. Good baseball mechanics.

Difficult to make defensive plays at the fence.

WATERWORLD

**VIRTUAL
BOY**

Company.....Ocean
Release Date.....October 1995
Memory Size.....16 Megabits

Atollers are drowning. Smokers are laughing, and you are steering toward destruction.

What could be more fitting than a company called Ocean making a game called Waterworld? As it turns out, putting some water in the game might have been a good idea. This 3-D shooter uses nice sprite graphics in a fairly open field of play. Aboard your triple-hulled trimaran, all you have time to worry about is shooting the Smokers before they reach the hapless, floundering Atollers. Your boat can move in 360° or forward while you attack, but speeds are slow and momentum carries you over targets and into trouble unless you steer with care. The game is basically an Asteroids-type shooter with unlimited levels. It's the same design as the arcade game, but the Super NES game will have more variety. Power immerses itself in the Virtual Boy title this month.

Good background music.

Not much variety in play or graphics.

ZOOP

CompanyViacom New Media
 Release DateOctober 1995
 Memory Size4 Megabits

A new action puzzle to twist your mind into knots.

Zoop departs from the standard mold of action puzzles.

Like Tetris, by putting the action all around you. The four sides of the playfield fill up with columns of colored shapes that you have to blast with a similarly colored shot. Victory is achieved only if you keep the blocks from overrunning the central square, which isn't easy. This month's Take 2 introduces you to the next puzzle obsession.

Challenging: Not the usual Tetris clone. Juicy soundtrack.

Steep learning curve

PAK WATCH

THE INSIDE SOURCE ON FUTURE GAMES

Wario lights up Virtual Boy in the first fire-breathing, foot-stomping, item-charging adventure for the 3-D system. If you played the original Wario Land for Super Game Boy, you'll feel right at home with all the hat tricks, keys, bonus areas and special attacks, but Virtual Boy Wario Land takes you to a whole new dimension. The 3-D capability of Virtual Boy comes into play in several ways. Wario moves on several planes of action, hopping on spring-

loaded trampolines to propel himself from foreground to background. In the most dramatic 3-D rooms, Wario moves both into the room and across the room. Baddies also move in three dimensions. Some enemies come swinging out of the background, scaling larger and larger as they approach. Other foes pop back and forth from the background plane to the foreground. With all this action going on, Wario has to be twice as careful, but he has some great stuff to get him out of the tight spots. The hats are the best. Strap on one of these sombreros and watch Wario transform and gain super powers.

Of course, if Mario's rival gets bopped on the pate, he'll become a pathetic little dweeb until he finds a power-up.

NBA GIVE'N GO

Contractual problems may have changed the name from NBA Run'N Gun, but Konami's NBA Give'N Go is the same game, downsized for the Super NES from its original rocking, arcade self. This four-player

hoops game turns its back on the side view made so popular by NBA Jam and

introduces a radical perspective that follows the action from beneath one basket down the court. Responsive play control requires a bit of touch, but that just adds to the realism. The AI seems pretty realistic, as well. Working around a pick to take the open shot, players will appreciate both human and computer teammates. Next month, Power will look at NBA Give'N Go in Sports Scene. Plan to be there.

the Blue Bomber down, including Capcom's canceled cancellation of the game. According to Greg Ballard, President of Capcom U.S.A., "Mega Man X3 represents Capcom's commitment to the Super NES...and Mega Man's millions of fans." At Power, we include ourselves in the ranks of fans. Mega Man X3 offers the first major innovation in the Mega Man series in years. Zero, the red robot that Mega Man X rescued in his last

Mega Man will never die! At least, it seems that nothing can keep

out a new fiend named Doppler. The innovation is that you can select and play with either Mega Man X or Zero at any stage of the game. Doppler's eight new repleoids include Neon Tiger, Blast Hornet, Volt Catfish and Tunnel Rhino. In all, players must battle through 12 regular stages and one hidden stage. Once again, Capcom makes use of its C4 chip to add to the special graphics power of the Super NES. Although Capcom hopes to release the game in November, chances are that you won't find it in stores until December.

WWF: WRESTLEMANIA THE ARCADE GAME

That's gotta hurt! It's not just a matter of slapping pile drivers and toeholds. The finished version of WWF: WrestleMania The Arcade Game just arrived, and it is hotter than we imagined. The final Super NES digitized graphics include the wild move animations junk up there with Mortal Kombat 3. And, the play isn't anything like previous WWF games. The moves and combos give the game great variety and a lot of humor. Donk the clown brings down the house with his antics. The digitized play-calling also helps to build on the energy taking place in the ring. Next month, Power will take a closer look.

Whether you're a wrestling fan or not, don't miss it.

ACCLAIM

SCOOBY DOO

When the Scooby gang shows up for a night of sleuthing in a haunted shipwreck, you can bet that things will get out of paw.

Sursoft originally designed this mystery adventure, but sold it along with the rest of its titles to Acclaim. The Super NES game features a few original ideas. In the game, Scooby and Shaggy search for clues, then using the items to Velma. Freddy helps out with hints and suggestions while Daphne hands out Scooby snacks to keep the jumpy explorers full of false courage. The big visual gag, of course, is when the terrified Scooby leaps into Shaggy's arms when a ghost appears, or even a mouse.

Although most of the action takes place in side-scrolling areas, the map layout exists in three dimensions. Most of the action is simple, but the size of the game makes Scooby Doo more interesting and involving than you might think. The game also does a good job of recreating the feel of the Hanna-Barbera cartoon and there's a password for storing your progress.

FIRST LOOK

War 2410 from new licensee, Advanced Productions, takes a page from Super Conflict, the strategy game from Vic Tokai. In this futuristic strategy game, the player moves his or her mobile units across the map to attack or defend against the enemy.

When opposing units meet, the screen switches to an animated battle view where the outcome is revealed. Unfortunately, the graphics don't add much to the mix.

DISNEY FOR THE HOLIDAYS?

Although we're still waiting to see the finished games, Disney Interactive sent a care package of shots including screens from Toy Story the movie and some Gargoyles art to tide us over. Toy Story for the Super NES is said to include graphics that were ported directly from the movie. Since the movie is computer generated, the game could borrow directly from it. Gargoyles, which we have played in an early form, included excellent animation and lots of moves for the gargoyle character. Gargoyles is scheduled to be released in November, but chances are it won't show up in stores until January. The same is true of Pocahontas and Toy Story. Don't be discouraged if you're waiting for the titles. Disney is committed to making a hit on the 16-bit market, but the development cycle is running about a month slower than expected. As for next year, two terrific looking games are waiting in the wings: Maui Mallard and Pinocchio.

Disney Interactive

GOLDENEYE STEPS UP TO NU 64

Goldeneye, the Nintendo video game based on the new James Bond movie, has been transformed during development from a 16-bit game to an NU 64 title. Although this may sound like a radical shift, the preliminary designs and initial work at Rare uses 3-D characters and art that will fit perfectly on the new 64-bit system. Obviously, this change will result in some delays. The Super NES game was slated for a winter release, but the Nintendo Ultra 64 system won't be available until spring. A Virtual Boy version is also in the works.

FINAL FIGHT 3

Capcom U.S.A. scheduled *Final Fight 3* for a November release this year, but at publication time for the November issue of *Power*, the game hadn't materialized

from Capcom Japan. When you count in production and shipping times, Capcom will be lucky to get the game to you by the holidays. Assuming that they do succeed, what you'll get is a scrolling fighter from the series that started the whole fad back in the 80's. Mike Haggar returns to clean up Metro City with his pals, Guy, who also will appear in *Street Fighter Alpha* in the arcades, and newbies Lucia and Dean. The biggest improvements from *Final Fight 2* are that one player can choose a two-player auto option and each character has a Super Meter for special attack moves.

NESTER'S FUNKY BOWLING

Nester, the one-time bad boy of Nintendo Power comic fame, returns to the gaming world

in his own Virtual Boy title from **Nintendo**. Finally, bowling fans can throw a strike without putting on ill-fitting shoes. This ten-pin knock-down

scores the frame-by-frame according to the laws of bowling and the ball blasts the pins

according to the laws of physics. Although you might expect Nester to take liberties with the game and end up rolling down the lane

himself, *Nester's Funky Bowling* turns out to be the serious sport disguised in a funky shirt.

WRITING ON THE WALL

Bandai plans to milk its popular *Mighty Morphin Power Rangers* for everything the license is worth, and, apparently, it's worth a lot. Bandai reports that it will follow up its MMR Fighting Edition game with an action game for Virtual Boy featuring the morphing fiend-fighters. We haven't seen the game yet at Pak Watch, but we expect to see a version in time to put a shot in next month's *Power*.

graphics and humor. This Spot departs from the previous game by adding stages with 3-D, three quarter perspectives.

In Southern Cal, **T-HQ** continues its quest to reduce every EA Sports title to fit the Game Boy format. The latest conversions include *NBA Live '96*, *FIFA '96* and *NHL '96*, all with enhanced Super Game Boy features. All three games arrived in early versions, and all three showed promise.

NBA Live '96 wasn't running at full speed yet, but the animation looked smooth and the play control already seemed pretty sharp—a good sign that the final game will be good. For a Game Boy sports title, the options also seemed very sophisticated. You can choose strategies for your NBA team and select preset plays to run. All the teams and most players are represented, as well. **T-HQ** plans to release *NBA Live* in late November or December, just months after *NHL '95* was released. **T-HQ** plans on bringing out the sequel, *NHL '96*. The version received at Pak Watch was still unfinished, but it looked similar to *NHL '95* although perhaps a bit faster. That's not surprising as both games come from the development team at Probe. *FIFA Soccer '96*, another Probe project, also came to us in an early form. The Super Game Boy enhanced sound was terrific and the animation was surprisingly sophisticated, even at this early stage. This is truly an International

Pak, with English, German, French, and Spanish language options available. We'll take another look at these three sports games when they're done, but it looks like any of them would make a nice portable addition to your sports library.
